# 第六屆亞太國家不確定性 及金融市場國際會議

The 6<sup>th</sup> International Conference on Uncertainties and  
Financial Markets in the Asia-Pacific Countries

28-29 March 2026  
Wynn Palace, Macao SAR

## Welcome Message

Dear Conference Participants,

On behalf of ICUFM, it is our distinct honor to welcome you to the 6th International Annual Conference. This year's program reflects the remarkable breadth and depth of scholarship in the field, with over a hundred and fifty submissions received and an outstanding selection of accepted papers. Contributions from leading institutions and researchers across more than 11 countries and 4 continents underscore the truly international character of this gathering (see the next page for a word cloud of accepted paper titles).

The 2026 conference addresses a wide spectrum of topics, including:

- Sources of uncertainty, particularly trade and geopolitical factors, along with their measurement and pricing
- Channels and mechanisms through which uncertainty influences financial systems
- Volatility spillovers and financial cycles
- The role of financial intermediaries
- Predictability and informational content of uncertainty
- Technological innovation and its relationship to uncertainty
- Theoretical frameworks on uncertainty
- Broader themes such as sustainable finance, behavioral finance, corporate finance, financial markets and institutions, financial regulation and policy, and household finance.

We are privileged to host three distinguished keynote speakers: Prof. Kalok Chan (City University of Hong Kong), Prof. Paresh Narayan (Monash University), and Prof. John Wei (The Hong Kong Polytechnic University).

We also extend our sincere appreciation to the guest speakers of the Meet with Editors session: Prof. Arman Eshraghi and Prof. Sabri Boubaker.

We wish all participants a fruitful and inspiring conference!

Adrian Cheung  
Chairman of Organising Committee  
ICUFM 2026 Conference

Professor Kalok Chan is Chair Professor of Finance at City University of Hong Kong. He served as the Dean of the College of Business from November 2023 to May 2025. Prior to joining CityU in November 2023, Professor Chan was the Wei Lun Professor of Finance at the Chinese University of Hong Kong, serving as Dean of CUHK Business School from 2014 to 2019 and Chairman of the Department of Finance from 2021 to 2023. Before that he worked as the Synergis-Geoffrey Yeh Professor of Finance at the Hong Kong University of Science and Technology, where he served as the Head of Finance Department (2003-2013) and Acting Dean of HKUST Business School (2013-14). He was the Founding Director of the HKUST-NYU Stern Joint Master in Global Finance programme. Prior to joining HKUST, he was an Associate Professor of Finance at Arizona State University. Professor Chan obtained his BSSc in Economics from CUHK and his PhD in Finance from Ohio State University. As a leading scholar and a prominent researcher, he has published in numerous top-ranked finance journals. He has been ranked as the top finance researcher in the Asia-Pacific region.

Professor Chan's research interests focus on the dynamics of asset prices, derivatives, market microstructure, and international financial markets. Active on several public bodies in Hong Kong, Professor Chan is a past President of the Asian Finance Association, and currently serves on several committees including the Human Capital Committee of HK Financial Services and Development Council, TraHK Supervisory Committee, Hong Kong Academy of Finance and HKIMR Council of Advisers for Applied Research.

## **Prof. Paresh Narayan**

Professor Paresh Kumar Narayan is a Professor at Monash Business School. He is the President of the Asia-Pacific Applied Economics Association, Editor-in-Chief of Emerging Markets Finance and Trade, and Managing Editor of Bulletin of Monetary Economics and Banking. Paresh is also a Distinguished Professor at the Indian Institute of Technology Hyderabad and an adjunct

professor at several universities around the world.

Professor Narayan's research interests are in Applied Econometrics and Financial Markets. He has published over 380 papers in international refereed journals and has the distinguished title of a highly cited researcher over 5 consecutive years (2017-2021), with an h-index of 88. He is ranked 544 by Stanford University amongst 9 million researchers globally.

Professor Narayan is a consultant to multiple organisations, including, Bank Indonesia, Central Bank of Sri Lanka, Asian Development Bank, Development Bank Institute, Commonwealth Secretariat, AusAID, South Pacific Commission, Forum Secretariat, UNDP, ILO, Solomon Island National Provident Fund, Central Bank of Solomon Islands, USP, and, Economic Research Institute of ASEAN (ERIA).

## Prof. John WEI

Professor John Wei is currently Chair Professor of Financial Economics at The Hong Kong Polytechnic University (PolyU). He received his PhD in Finance from the University of Illinois at Urbana-Champaign. He previously taught at University of Mississippi, University of Miami, and Indiana University. Before joining PolyU, he served as Chair Professor of Finance at Hong Kong University of Science and

Technology (HKUST) and had worked there for 24 years. He previously served as Director of Value Partners Center for Investing and Director of the Center for Asian Financial Markets and Director of Master of Science (Financial Analysis)/(Investment Management) Programs at the HKUST for many years. He served as Acting Head of the Department of Finance at HKUST during January 2000-August 2002, February-June 2003, and June 2015. Moreover, he assisted in developing wealth management and investment models for, among others, Hang Seng Bank Limited, HSBC Corporation Limited, and Fidelity Investments Management (Hong Kong) Limited.

Professor Wei's research interests are mainly in empirical asset pricing, international finance, and corporate governance. He has published more than sixty articles in leading finance and accounting journals, including Journal of Finance, Journal of Financial Economics, The Accounting Review, Management Science, Journal of Financial and Quantitative Analysis, and Journal of Business, among others. Professor Wei is best known for his extensive research on the cross-section of stock returns in the U.S. and international markets. He has discovered some new and important anomalies associated with cross-sectional return predictability and have first introduced "individualism" to the empirical asset pricing literature. Four of these papers have been cited by the 2013 Nobel Prize in Economics Laureate, Eugene Fama, and his co-author, Kenneth French. Most of his papers are well cited. Many of his papers are associated with the foundation of those factors in the Fama and French (2015) five-factor.
