

RUBBERCON2027(Xi'an)

Sustainable, Durability, Eco-friendly Rubbery Materials

May 12 - 13, 2027

Shangri-La Xi'an, China

Host

Chemical Industry and Engineering Society of China (CIESC)

Co-host

Xi'an Jiaotong University

Organizers

Rubber & Elastomer Science and Engineering Committee, CIESC

Beijing Research & Design Institute of Rubber Industry Co., Ltd

RUBBERCON2027(Xi'an)
Sustainable, Durability, Eco-friendly Rubbery Materials
May 12 - 13, 2027 Shangri-La Xi'an, China

Invitation to RubberCon 2027(Xi'an)

Dear colleagues and friends,

Greetings!

The International Rubber Thematic Conference 2027 (RubberCon 2027) will be held in Xi'an, Shaanxi Province, China, on May 12–13, 2027. This marks China's second time hosting this premier global rubber conference under the International Rubber Conference Organisation (IRCO), following the successful RubberCon 2019 in Hangzhou. Under the theme "Sustainable, Durability, Eco-friendly Rubbery Materials," the conference closely aligns with the global rubber industry's green transformation and high-quality development. With a focus on innovation, the conference aims to address the needs of our era and promote the sustainable and high-quality development of the industry.

Xi'an, historically known as Chang'an, is a major cradle of Chinese civilization and the starting point of the ancient Silk Road. It bears the profound legacy of ancient capitals spanning the Zhou, Qin, Han, and Tang dynasties, and boasts world-renowned historical treasures such as the Terracotta Warriors, the Giant Wild Goose Pagoda, and the Ming City Wall. At the same time, Xi'an radiates modern technological vitality and innovation, serving as a major hub for scientific research, education, and high-tech industries in China. Here, ancient civilization and cutting edge technology complement each other, while traditional heritage and innovative spirit merge perfectly, creating a unique and profound atmosphere for this international rubber conference. It offers an exceptional platform for global colleagues to exchange scientific achievements, industrial technologies, and innovative ideas, helping to translate more scientific outcomes into real-world productivity and fostering win-win cooperation.

We look forward to welcoming rubber scientists and technologists from around the world to Xi'an to share cutting-edge achievements, spark innovative ideas, deepen friendships and cooperation, and jointly advance the rubber materials field toward green, high-performance, and intelligent development.

Sincerely yours,

Liqun Zhang

Chairman, RubberCon 2027(Xi'an)

President of Xi'an Jiaotong University and Academician of the Chinese Academy of Engineering

RUBBERCON2027(Xi'an)

Sustainable, Durability, Eco-friendly Rubbery Materials
May 12 - 13, 2027 Shangri-La Xi'an, China

Topics

1. Genomics and AI of Rubber Materials
2. Bio-based Rubber Raw Materials
3. Reinforcing Materials and Additives for Rubbers
4. Rubber Rheology, New Processing Technology and Intelligent Manufacture
5. Life and Health /Intelligent/Biomimetic Rubber Materials
6. Rubber Materials for Harsh Service Environment
7. Recycling and Reuse of Waste Rubber Materials

Call for Papers

Submission Deadline of Abstract: **Dec. 12, 2026**. Please log in to the official website for more details.

Schedule

Schedule at a Glance

Time	Tue., 11 May. 2027	Wed., 12 May. 2027	Thu., 13 May. 2027
AM	Registration	Registration	Registration
		Opening Ceremony	Technical Sessions
After Lunch		Plenary Lectures	
Evening		Banquet	

Registration Fees

Type	Early Bird (Before 12 Jan. 2027)	Normal Registration
Student	\$260	\$350
Member	\$480	\$580
Non-Member	\$540	\$640

RUBBERCON2027(Xi'an)
Sustainable, Durability, Eco-friendly Rubbery Materials
May 12 - 13, 2027 Shangri-La Xi'an, China

Ancient Relics

Terracotta Warriors

City Wall

Giant Wild Goose Pagoda

Culinary Delights

Yangrou Paomo

Roujiamo

Liangpi
