

SIDE EVENT SE-7

Digital Water Management Driving Innovation in Climate Crisis

🕒 10:30-12:00, 25 September 2024, Wednesday

📍 Beijing International Convention Center, Room 305#-AB

This session is hosted by K-water to provide comprehensive overview of K-water’s innovative technologies aimed at addressing global water challenges. Attendees will gain insights into the three super-gap technologies and global leading technologies that K-water is pioneering to enhance water sustainability and resilience worldwide.

The session will also feature a panel discussion on the implications of these technologies for the global water sector, offering opportunities for knowledge exchange and collaboration.

ORGANIZER(S): K-water
