

## Call for Tutorials: IEEE International Symposium on Power Electronics for Distributed Generation Systems (PEDG) 2025

The IEEE International Symposium on Power Electronics for Distributed Generation Systems (PEDG) invites submissions for tutorial proposals for the upcoming symposium. This event aims to bring together researchers, industry experts, and practitioners to discuss the latest advancements in power electronics related to distributed generation systems.

### Topics of Interest

We welcome tutorials on a broad range of topics, including but not limited to:

- Innovative power converter designs for renewable energy systems
- Control strategies for distributed generation and microgrid applications
- Integration and management of renewable energy sources
- Advances in energy storage systems and their applications
- Power electronics for electric vehicles and smart grid technologies
- Emerging trends and technologies in power electronics

### Important Dates

- Proposal Submission Deadline: Feb. 15, 2025
- Notification of Acceptance: Mar. 31, 2025

### Proposal Submission and Review Process

All tutorial proposals must be sent to [pedg2025@nuaa.edu.cn](mailto:pedg2025@nuaa.edu.cn). Please use the attached proposal template. The proposals will be reviewed by a panel of subject matter experts.

We look forward to receiving your innovative tutorial proposals that will enhance the knowledge and skills of attendees in the dynamic field of power electronics.
