

The Asia Pacific Academy of Pediatric Allergy, Respiriology & Immunology (APAPARI) 2024 Annual Congress
 Poster Display Schedule
 Time: 22-24 Nov, 2024
 Location: Shenzhen Convention Center, Hall 5, Floor 5

Poster Stand No.	Name	Affiliation	Submission ID	Topic
PS-001	李汶鸿	The First Affiliated Hospital of Anhui Medical University	1427	Peripheral blood type 2 innate lymphoid cells and related cytokines in children with refractory Mycoplasma pneumoniae pneumonia
PS-002	张颖莹	Jiangsu Provincial People's Hospital (The First Affiliated Hospital of Nanjing Medical University)	1192	The dual role of allergic rhinitis in COVID-19 symptoms: A comprehensive analysis
PS-003	李佳琳	Beijing Children's Hospital, Capital Medical University	1090	Analysis of clinical characteristics and risk factors of severe Mycoplasma pneumoniae pneumonia in children before and after COVID-19 epidemic
PS-004	李嘉莹	Jinan Children's Hospital (Children's Hospital Affiliated to Shandong University)	1488	The effects of temperature variation on obstructive pulmonary dysfunction in asthmatic children.
PS-005	连狄	Fujian Children's Hospital	1398	Integrative Bioinformatics and Machine Learning Analysis of Pyroptosis-Related Genes and Immune Infiltration Patterns in Childhood Asthma
PS-006	连狄	Fujian Children's Hospital	1337	Clinical Diagnostic Value of Throat Swabs in Children with Acute Lower Respiratory Tract Infections Based on Targeted Next-generation Sequencing Technology
PS-007	谢思	Wuhan Children's Hospital, Tongji Medical College, Huazhong University of Science and Technology	1316	Development and validation of an early Warning System for Severe Community-Acquired Pneumonia in Children
PS-008	Ting Fan Leung	The Chinese University of Hong Kong	1530	Genetic influences of CDHR3 on human rhinovirus-associated respiratory tract infections in Hong Kong children
PS-009	郭烽伟	Shenzhen Children's Hospital	918	Clinical comparison of pertussis infected with macrolides-resistance and macrolides-sensitive Bordetella pertussis
PS-010	曾雨冰	Children's Hospital affiliated to Capital Institute of Pediatrics	1507	Hypoxia induced Hif-1 α mediated lactylation modification participates in the occurrence of inflammation in mice lung tissue
PS-011	Hea-Young Oh	University of Ulsan College of Medicine	840	Integrative multi-omics based endotypes of allergic sensitization trajectory in children: COCOA study
PS-012	代妮妮	Peking University Third Hospital	967	The Impact of Dietary Emulsifiers on Food Allergy
PS-013	杨男	Shengjing Hospital affiliated to China Medical University	1164	Study on the Mechanism of STING Regulating Ferroptosis in Airway Inflammation of Asthmatic Mice
PS-014	黄寿瑞	Children's Hospital Affiliated to Shandong University	984	Characteristics of Antigen Genotypes of Bordetella Pertussis in Shandong Province, 2014-2022
PS-015	张丽	Jingdu Children's Hospital	1570	Clinical value analysis of detecting procalcitonin in the diagnosis of antibiotic treatment for respiratory infections in children
PS-016	郭孟杨	Beijing Children's Hospital, Capital Medical University	1468	Prevalence and epidemiological features of group A streptococcus in school-aged children before and after periods of high scarlet fever incidence in China
PS-017	彭力	Hunan Provincial People's Hospital (The First Affiliated Hospital of Hunan Normal University)	959	Study on tongue image and hypercoagulable state of mycoplasma pneumoniae pneumonia
PS-018	杜敏	Shanxi Children's University	881	Impact of Non-pharmaceutical Interventions on the Clinical Characteristics of Streptococcal Pneumoniae Disease in Children
PS-019	Yoon Hong Chun	The Catholic University of Korea	778	Intravenous immunotherapy with Der p 1-containing nanoparticles alleviates allergic rhinitis symptoms in a murine model
PS-020	刘禹良	Beijing Children's Hospital, Capital Medical University	674	Quantitative evaluation and risk factors of mucus plugs in hospitalized children with acute asthma exacerbation
PS-021	张平波	Shanghai Tong Xing pediatric clinic	384	Comparison of two low-dose inhaled budesonide treatments for children with mild persistent asthma
PS-022	陈丽琴	Children's Hospital, Shanghai Jiao Tong University School of Medicine	633	Screening the key biomarkers of IVIG-unresponsive for Kawasaki Disease based on single cell sequencing technology
PS-023	彭力	Hunan Provincial People's Hospital (The First Affiliated Hospital of Hunan Normal University)	1313	Analysis of microplastic contamination in bronchoalveolar lavage fluid of children with mycoplasma pneumoniae pneumonia
PS-024	夏语嫣	Capital Institute of Pediatrics	1157	Directly detection and Genotyping Mycoplasma pneumoniae infection samples simultaneously by multiplex real-time PCR assay
PS-025	曲雯雯	Jingdu Children's Hospital	841	A Single-Center Prospective Study on Airway Damage Following Mycoplasma pneumoniae Pneumonia in Children
PS-026	杨柳	Henan Children's Hospital Zhengzhou Children's Hospital	785	Analysis of serum inhaled allergen specific IgE detection results in children suspected with allergic diseases in Zhengzhou
PS-027	张合华	Shengjing Hospital affiliated to China Medical University	449	Dietary patterns, nutrients, and risk of expiratory airflow limitation in children and adolescents
PS-028	邹慧敏	Beijing Children's Hospital, Capital Medical University	299	Study on factors influencing the persistence of bronchial asthma in children
PS-029	赵牧童	Beijing Children's Hospital, Capital Medical University	265	Upadacitinib for Refractory Pediatric Atopic Dermatitis: A Real-World Study on Effectiveness and Safety in Dupilumab Non-Responders
PS-030	张可祥	Capital Institute of Pediatrics	775	Diverse head-to-tail sequences in the circular genome of human bocavirus genotype 1 among children with acute respiratory infections implied the switch of template chain in the rolling-circle replication model
PS-031	何静	Children's Hospital, Zhejiang University School of Medicine	1518	Clinical relevance of molecular sensitization profile of house dust mite with early efficacy of subcutaneous specific immunotherapy
PS-032	HYOBIN KIM	Inje University Sanggye Paik Hospital	1209	Strontium exposure affects allergic rhinitis in children via IL-5: ECHO-COCA study
PS-033	韩春娇	Tianjin Children's Hospital	1042	Observation of therapeutic effect and correlation with serum IL-4 levels and related genes in children with allergic rhinitis treated with cocklebur fruit combination therapy
PS-034	田春雨	Children's Hospital affiliated to Capital Institute of Pediatrics	1533	Spirometry and impulse oscillometry in the diagnosis of cough variant asthma in children
PS-035	谷昊	Beijing Children's Hospital, Capital Medical University	605	Effectiveness of Sirolimus in Early On-Set Autoimmune Cytopenias of Autoimmune lymphoproliferative immunodeficiencies (ALPIDs)
PS-036	朱元元	Sun Yat-sen University	1428	Clinical Characteristics, Triggers, and Management of Anaphylaxis among Chinese Children: A Tale of Two Cities
PS-037	Ann Wing-shan Au	Department of Paediatrics, The Chinese University of Hong Kong, Prince of Wales Hospital, Hong Kong SAR, China	1218	From Source to Table: Recipe Development and Validation for Double-blinded, Placebo-controlled Food Challenge with Codfish
PS-038	蔡秦真	Wuhan Children's Hospital, Tongji Medical College, Huazhong University of Science and Technology	1214	Study on the Mechanism of Mycobacterium tuberculosis Infection Mediated by Exosomes Released from Macrophages Stimulated by Mycobacterium tuberculosis Rv1983
PS-039	蒋立	Kunming Children's University	854	Investigation on etiology of acute respiratory tract infection among children using PCR-based and next generation sequencing methods
PS-040	王文婷	Kunming Children's University	812	Comparative molecular types and drug resistance characteristics of carbapenem-resistant Klebsiella pneumoniae isolates from children and adults in Kunming City
PS-041	王天玥	Shengjing Hospital affiliated to China Medical University	1517	c-CBL/LCK/c-JUN/ETS1/CD28 axis restrains childhood asthma by suppressing Th2 differentiation
PS-042	孙晋波	Peking University Third Hospital	950	Risk Factors Analysis of Allergic Diseases in Infancy among Low Birth Weight Infants with Eosinophilia in Neonatal Period
PS-043	蒋玉涵	Tianjin Children's Hospital	1037	Association Between Childhood Asthma and Chronic Obstructive Pulmonary Disease: Insights from the UK Biobank cohort and Mediation Analysis of Protein Mechanisms
PS-044	蒋静	Chongqing Maternal and Child Health Care Hospital	994	Multicenter Investigational Study on Environmental Factors Influencing Childhood Bronchial Asthma

PS-045	王青	Affiliated Pediatric Hospital of Fudan University	448	Disturbed plasma metabolites of childhood asthma in relation to disease severity
PS-046	董贺婷	Children's Hospital of Soochow University	375	Exploration of Lipid Metabolomics Biomarkers in Pediatric Bronchial Asthma
PS-047	陈凌	Sixth People's Hospital Affiliated to Shanghai Jiao Tong University School of Medicine	367	Mechanistic Study on the Alleviation of Neutrophilic Asthma Airway Inflammatory Response in Mice through Inhibition of Neutrophil Extracellular Traps (NETs)
PS-048	Kyohei Takahashi	NHO Sagami National Hospital	1255	The Usefulness of Propensity Score Matching in the Evaluation of Oral Food Challenge Tests
PS-049	田艳梅	West China Second Hospital of Sichuan University	1375	Analysis of 20 child patients of autoimmune glial fibrillary acidic protein astrocytopathy (GFAP-A)
PS-050	蒋玉涵	Tianjin Children's Hospital	894	The Prolonged Impact of Early-Life Antibiotics Exposure on 81 Common Diseases: Evidence from Epidemiology, Genetics, and Causality
PS-051	陈劲光	Shenzhen Baoan District maternal and Child Health Hospital	263	Analysis on the Application Effect of Biomaster Virtual Scene Interactive Rehabilitation Combined with Multiple Respiratory Rehabilitation in the Therapy of Asthma in School-age Children
PS-052	杨男	Shengjing Hospital affiliated to China Medical University	1166	Association between Mycoplasma pneumoniae induced bronchiolitis in infant and wheezing
PS-053	胡家康	ShanXi Children's University	992	Analysis of etiological features of children with community-acquired pneumonia
PS-054	王逸珂	Sun Yat-sen University)	1421	Food Allergy Preparedness in Educational Institutions and Schools in Guangdong Province, China
PS-055	王思莹	Heilongjiang Hospital, Beijing Children's Hospital, Capital Medical University, Harbin, Heilongjiang	1287	Addition of human immunoglobulin combined with hormone therapy for Stevens-John syndrome is more effective and has a more favorable prognosis
PS-056	薛杏	Affiliated Pediatric Hospital of Fudan University	1132	Diagnosis Value of Long Non-coding RNA in Peripheral Blood Leukocytes in Kawasaki Disease and Construction of diagnostic model based on Machine Learning
PS-057	蒋虹	Chengdu New Century Women's and Children's Hospital	1057	Analysis of the Diagnostic value of FeNO200 and CaNO in small airway dysfunction in children with asthma
PS-058	黄晓梅	Shenzhen Children's Hospital	420	The clinical phenotype and functional verification of a novel IKBKKG mutation in one EDA-ID patient
PS-059	王蜀平	Children's Hospital affiliated to Capital Institute of Pediatrics	620	Application of Flow Cytometry detect cytokines of Plasma diagnosis and differential diagnosis of Viral and Autoimmune Encephalitis in Children
PS-060	褚慧	Beijing Children's Hospital, Capital Medical University	1011	A Case of Chronic Exogenous Lipoid Pneumonia Caused by Imbibition of Paraffin Oil in an Infant
PS-061	翁书婷	Peking University First Hospital	1449	Identification of cellular senescence-related biomarkers associated with the development of pulmonary fibrosis using bioinformatics
PS-062	姜雪	West China Hospital of Sichuan University	1122	One Step Visual Homogeneous Immunoassay of Rheumatoid Arthritis Biomarker in Serum via Target-Regulated Steric Hindrance and Competitive Recognition
PS-063	Eom Ji Choi	CHA Gangnam Medical Center, Seoul, Republic of Korea	1006	Differences in plasma cytokine profile according to phenotypes of food allergy: COCOA study
PS-064	林增瑞	Shenzhen Children's Hospital	784	Antimicrobial susceptible testing for Bordetella pertussis in Shenzhen, southern China during 2016 to 2023
PS-065	司晨琛	Wuxi Children's Hospital	1476	The expression profile of exosome microRNA derived from peripheral blood of children atopic dermatitis
PS-066	谢鑫鑫	Liaocheng People's Hospital	537	Analysis of risk factors for moderate to severe bronchopulmonary dysplasia and different weight segments of bronchopulmonary dysplasia in preterm infants with gestational age ≥ 32 weeks.
PS-067	谷燕君	The Chinese University of Hong Kong	1228	Quality of life for children with fish allergy: Children and parents perspectives
PS-068	张丽娜	Beijing Jishuitan Hospital affiliated to Capital Medical University	1227	Correlation between pulmonary function and metabolic indexes in obese children
PS-069	洪佳怡	Ruijin Hospital, Shanghai Jiao Tong University School of Medicine	192	Immunological characterization and safety and efficacy of oral supplementary food containing minute egg to establish tolerance in children with egg allergy
PS-070	张玉琨	Liaocheng People's Hospital	1431	A case study and literature review involving a child with CD2AP gene mutation, complicated by Kawasaki disease and nephrotic
PS-071	程佩斯	Shenzhen Children's Hospital	1223	Analysis of the clinical features of Kawasaki disease combined with G6PD deficiency
PS-072	颜灵逸	West China Second Hospital of Sichuan University	1433	High positivity of serum wheat IgG in ANA positive children
PS-073	张丽娜	Beijing Jishuitan Hospital affiliated to Capital Medical University	1224	Correlation analysis of pulmonary function and glycosylated hemoglobin in obese children
PS-074	Toshiyuki Kobayashi	Chiba University Hospital	962	Postoperative Outcomes Following Balloon Dilation in a Case of Severe Duodenal Stenosis Due to Non-Esophageal Eosinophilic Gastrointestinal Disorders
PS-075	谢鑫鑫	Liaocheng People's Hospital	761	Clinical study on reducing antibiotic DOT / 1000PT in very early preterm infants through quality improvement (QI)
PS-076	莫陈琦	Ruijin Hospital, Shanghai Jiao Tong University School of Medicine	494	Clinical Analysis of 577 Children with IgE-Mediated Food Allergy Aged 0-13 Years in Shanghai, China
PS-077	李娅敏	Kunming Children's University	1109	Analysis of clinical efficacy and safety of glucocorticoids in the treatment of Kawasaki disease
PS-078	褚慧	Beijing Children's Hospital, Capital Medical University	1528	A Case of ALK-positive Anaplastic Large Cell Lymphoma Involving the Pancreas
PS-079	张娟	Peking University Third Hospital	1545	Re-examination of food protein induced allergic proctocolitis
PS-080	张凯	Beijing Children's Hospital, Capital Medical University	1602	Impact of Chronic Intermittent Hypoxia on Cognitive Function and Hippocampal Neurons in Mice: Insights into Molecular Mechanisms
PS-081	周佳娟	Capital Institute of Pediatrics	860	Abnormal N6-methyladenine DNA Modification in hippocampal via OSA leads to Cognitive deficit
PS-082	吴云肖	Beijing Children's Hospital, Capital Medical University	1153	Impaired attention in children with obstructive sleep apnea: a preliminary study of behavior combined with neuroelectrophysiology
PS-083	王海桥	West China Second Hospital of Sichuan University	1314	A child case of cerebral paragonimiasis presenting initially with epilepsy and misdiagnosed as brain tumor
PS-084	汪雪莲	Guangzhou Women and Children Medical Center	1068	Application of the additive tree model in the early diagnosis of Epstein-Barr virus-related hemophagocytic lymphohistiocytosis
PS-085	孙丽红	The First Affiliated Hospital of Guangzhou Medical University	595	The effectiveness and safety of dupilumab in children with moderate-to-severe asthma in China: a retrospective real-world study
PS-086	AUYPORN CHEWATAWORN	Samitivej Chonburi hospital	1080	Clinical features of chronic rhinitis in children with dental malocclusion class II
PS-087	陈春雷	Tianjin Children's Hospital	1364	Clinical Evaluation of Omalizumab in the Treatment of Allergic Diseases in Pediatric Patients and Efficacy Analysis of Its Combination with AIT Desensitization
PS-088	马迪	Tongji Medical College, Huazhong University of Science and Technology Affiliated Tongji Hospital	910	Comparison of the therapeutic efficacy between autoimmune hepatitis and Drug-induced liver injury with features of autoimmunity
PS-089	王玉蕾	Shenzhen Children's Hospital	1357	Analysis of Clinical Features of 56 children with Necrotizing Pneumonia
PS-090	刘小兰	Shenzhen Children's Hospital	1279	A novo SON gene mutation with pulmonary malformation in an infant and 83 cases of ZTTK syndrome were reviewed
PS-091	Tiara Ella Sari	Dr M Djamil Central Hospital	1471	The proportion of atopic dermatitis after phototherapy in neonates within two years: a case study
PS-092	刘远威	The First People's Hospital of Chenzhou	1282	Constructing a diagnostic prediction model to estimate the severe respiratory syncytial virus pneumonia in children based on machine learning
