Invitation to the ISE 2026 Satellite Meeting in Xiamen

Dear Colleague,

We are delighted to invite you to the ISE 2026 Satellite Meeting in Xiamen, a premier pre-conference event for the 77th Annual Meeting of the International Society of Electrochemistry. The meeting will be held from 1-4 September 2026 at Xiamen University in Fujian, China. Our campus is located in the beautiful tourist city of Xiamen, which features the UNESCO World Heritage site of Gulangyu Island.

This gathering holds special significance for our community, as the main ISE Annual Meeting that was originally scheduled to take place in Xiamen was unfortunately canceled due to the COVID-19 pandemic. We warmly welcome researchers from over the world to join us for this academic exchange.

Additionally, this satellite event provides a particularly convenient travel option for delegates who will fly from Europe to the main ISE meeting in Sydney. Attendees can take advantage of direct flights from Amsterdam to Xiamen that arrive on September 1, which seamlessly connect to direct flights from Xiamen to Sydney departing on the evening of September 4 or 5. This strategic schedule allows European delegates to transform a standard transit into a rewarding scientific stopover while ensuring they arrive in Sydney perfectly timed for the 77th ISE Annual Meeting registration on September 6.

Conference Themes This three-day meeting aims to catalyze interdisciplinary interactions and showcase cutting-edge progress in rapidly expanding areas of electrochemistry. We welcome contributions and discussions across six core themes:

- **Analytical and Biological Electrochemistry**
- **Electrocatalysis and Energy Conversion**
- **Battery and Energy Storage**
- **Molecular Electrochemistry and Electrosynthesis**
- ***In situ/operando* Characterization of Electrochemical Interfaces**
- **AI for Electrochemistry**

Conference Schedule Overview

- **September 1:** Participant Arrival
- **September 2 (Morning):** The program will commence with a Plenary Session.

- **September 2 (Afternoon) – September 4:** Following the plenary talks, the meeting will divide into parallel sessions to cover the core themes. Each theme will feature an excellent lineup of Keynote and Invited speakers to provide an impactful platform for comprehensive discussions.

Registration Information

We encourage you to register early to secure your participation. All registration processing, fee schedules, and abstract submissions are managed exclusively through our official conference portal.

- **Official Website & Registration:** https://ise2026xm.scimeeting.cn/

If you have any inquiries regarding the event, please contact us at squid@xmu.edu.cn.

We sincerely look forward to welcoming you to Xiamen for a productive and engaging meeting.

Warm regards,

Organizing Committee

General Chairs: Prof. Bin Ren, Prof. Jian-Feng Li, Prof. Jun Cheng
