TRANSFORMER CORE

FULL-PROCESS SOLUTIONS PROVIDER

World-Leading Silicon Steel Technology Enterprise

PTTX

Focusing on high-end USL silicon steel and transformer cores, we are committed to providing green, low-carbon products and full-process solutions.

World-Leading Silicon Steel Technology

Global Leader in Transformer Cores

Key Contributor to National Standards

22^{Years}

Focused on Transformer Core Industry Chain

300^K

Silicon Steel Tons/Year

150^K

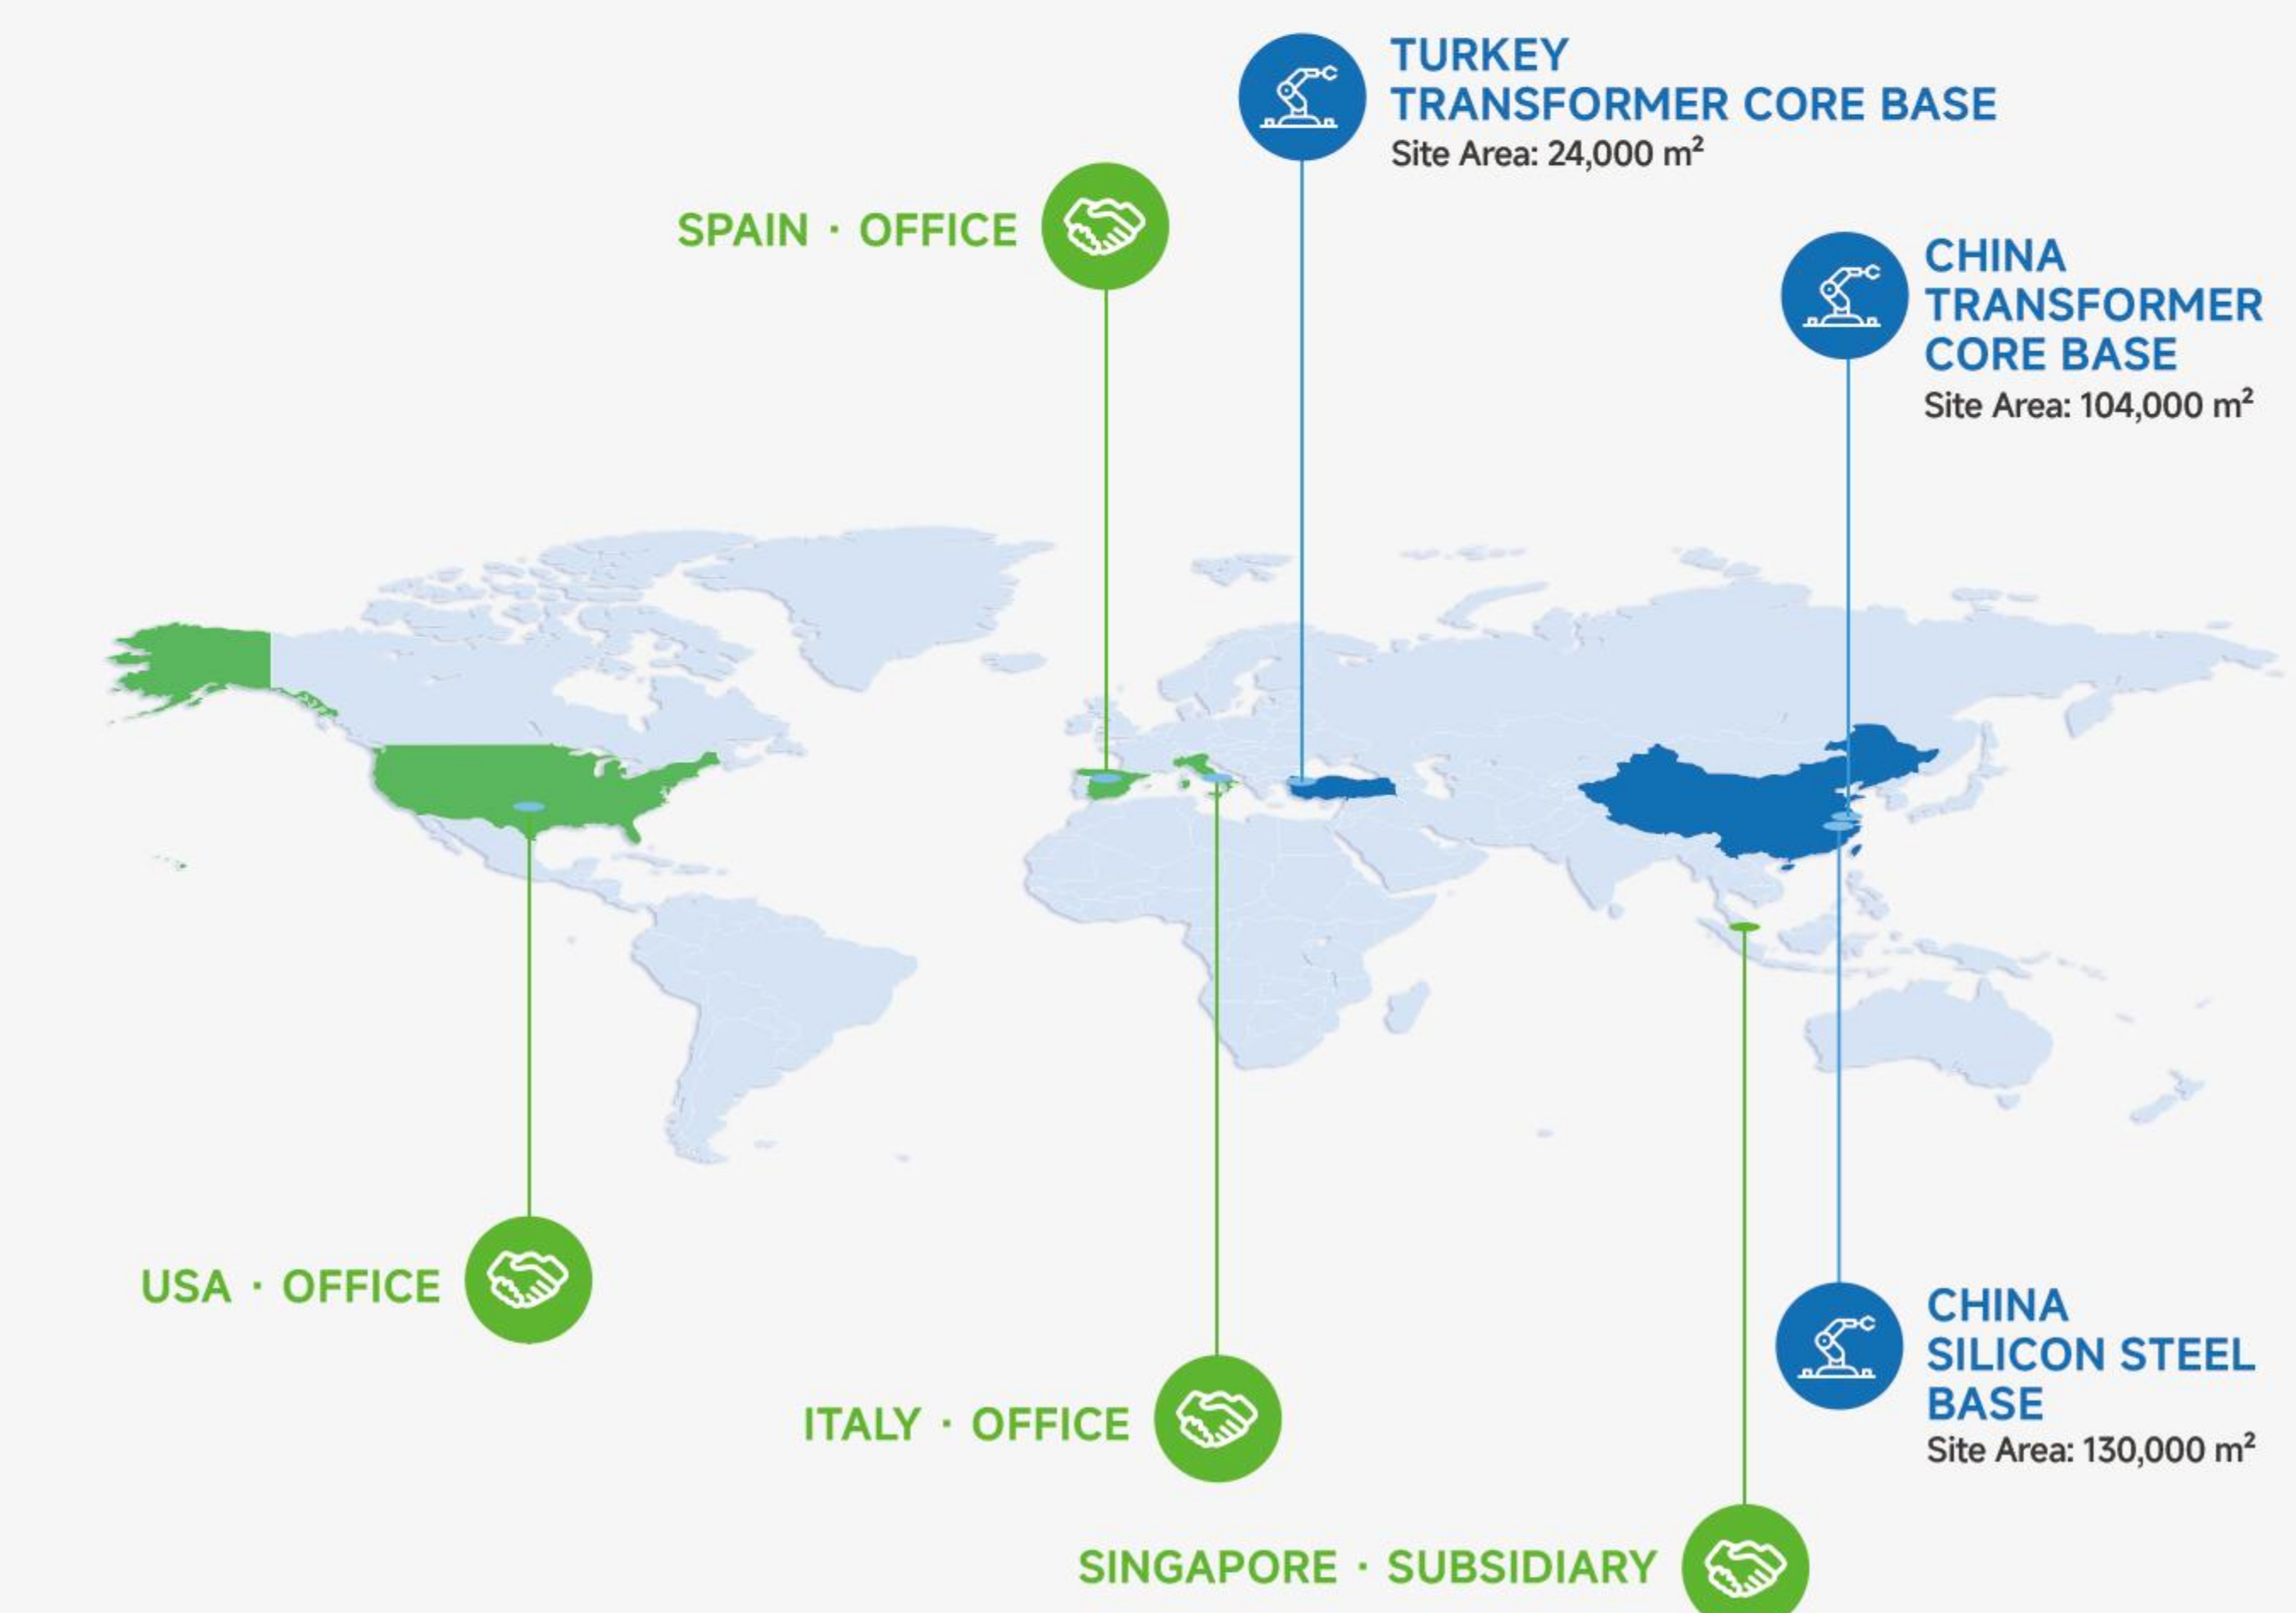

Transformer Core Tons/Year

300⁺

Global Clients and Partners

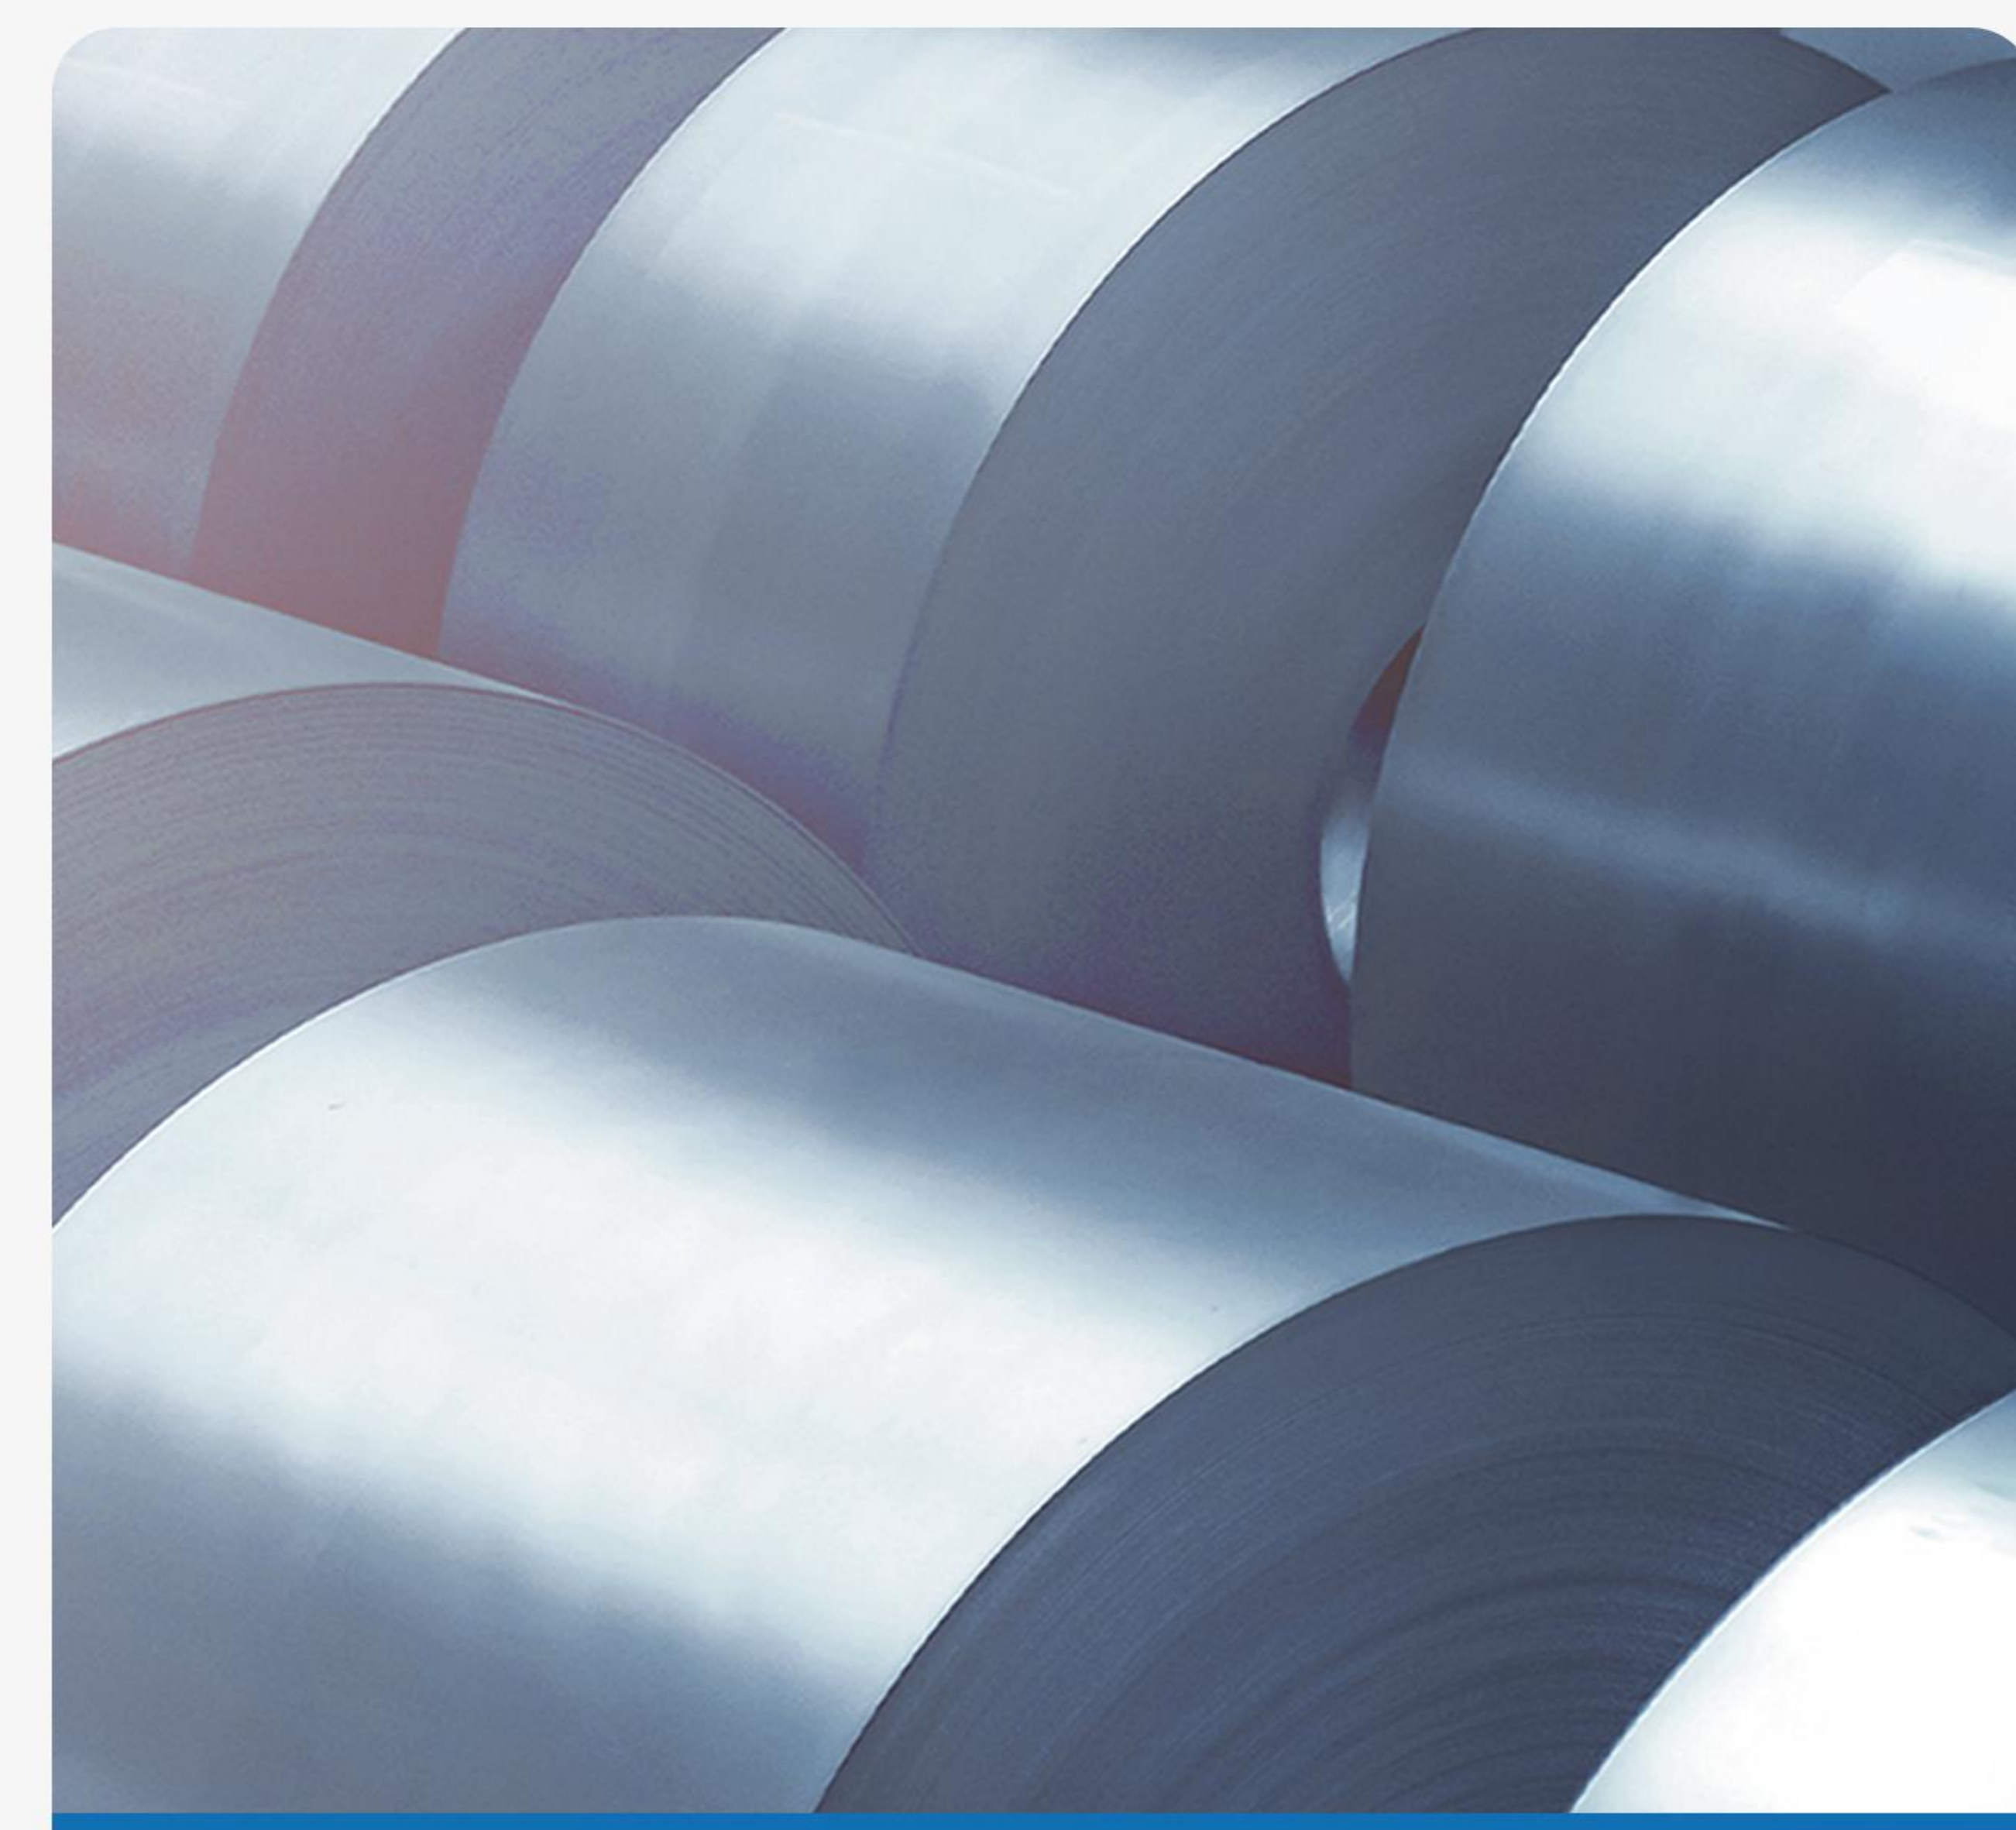

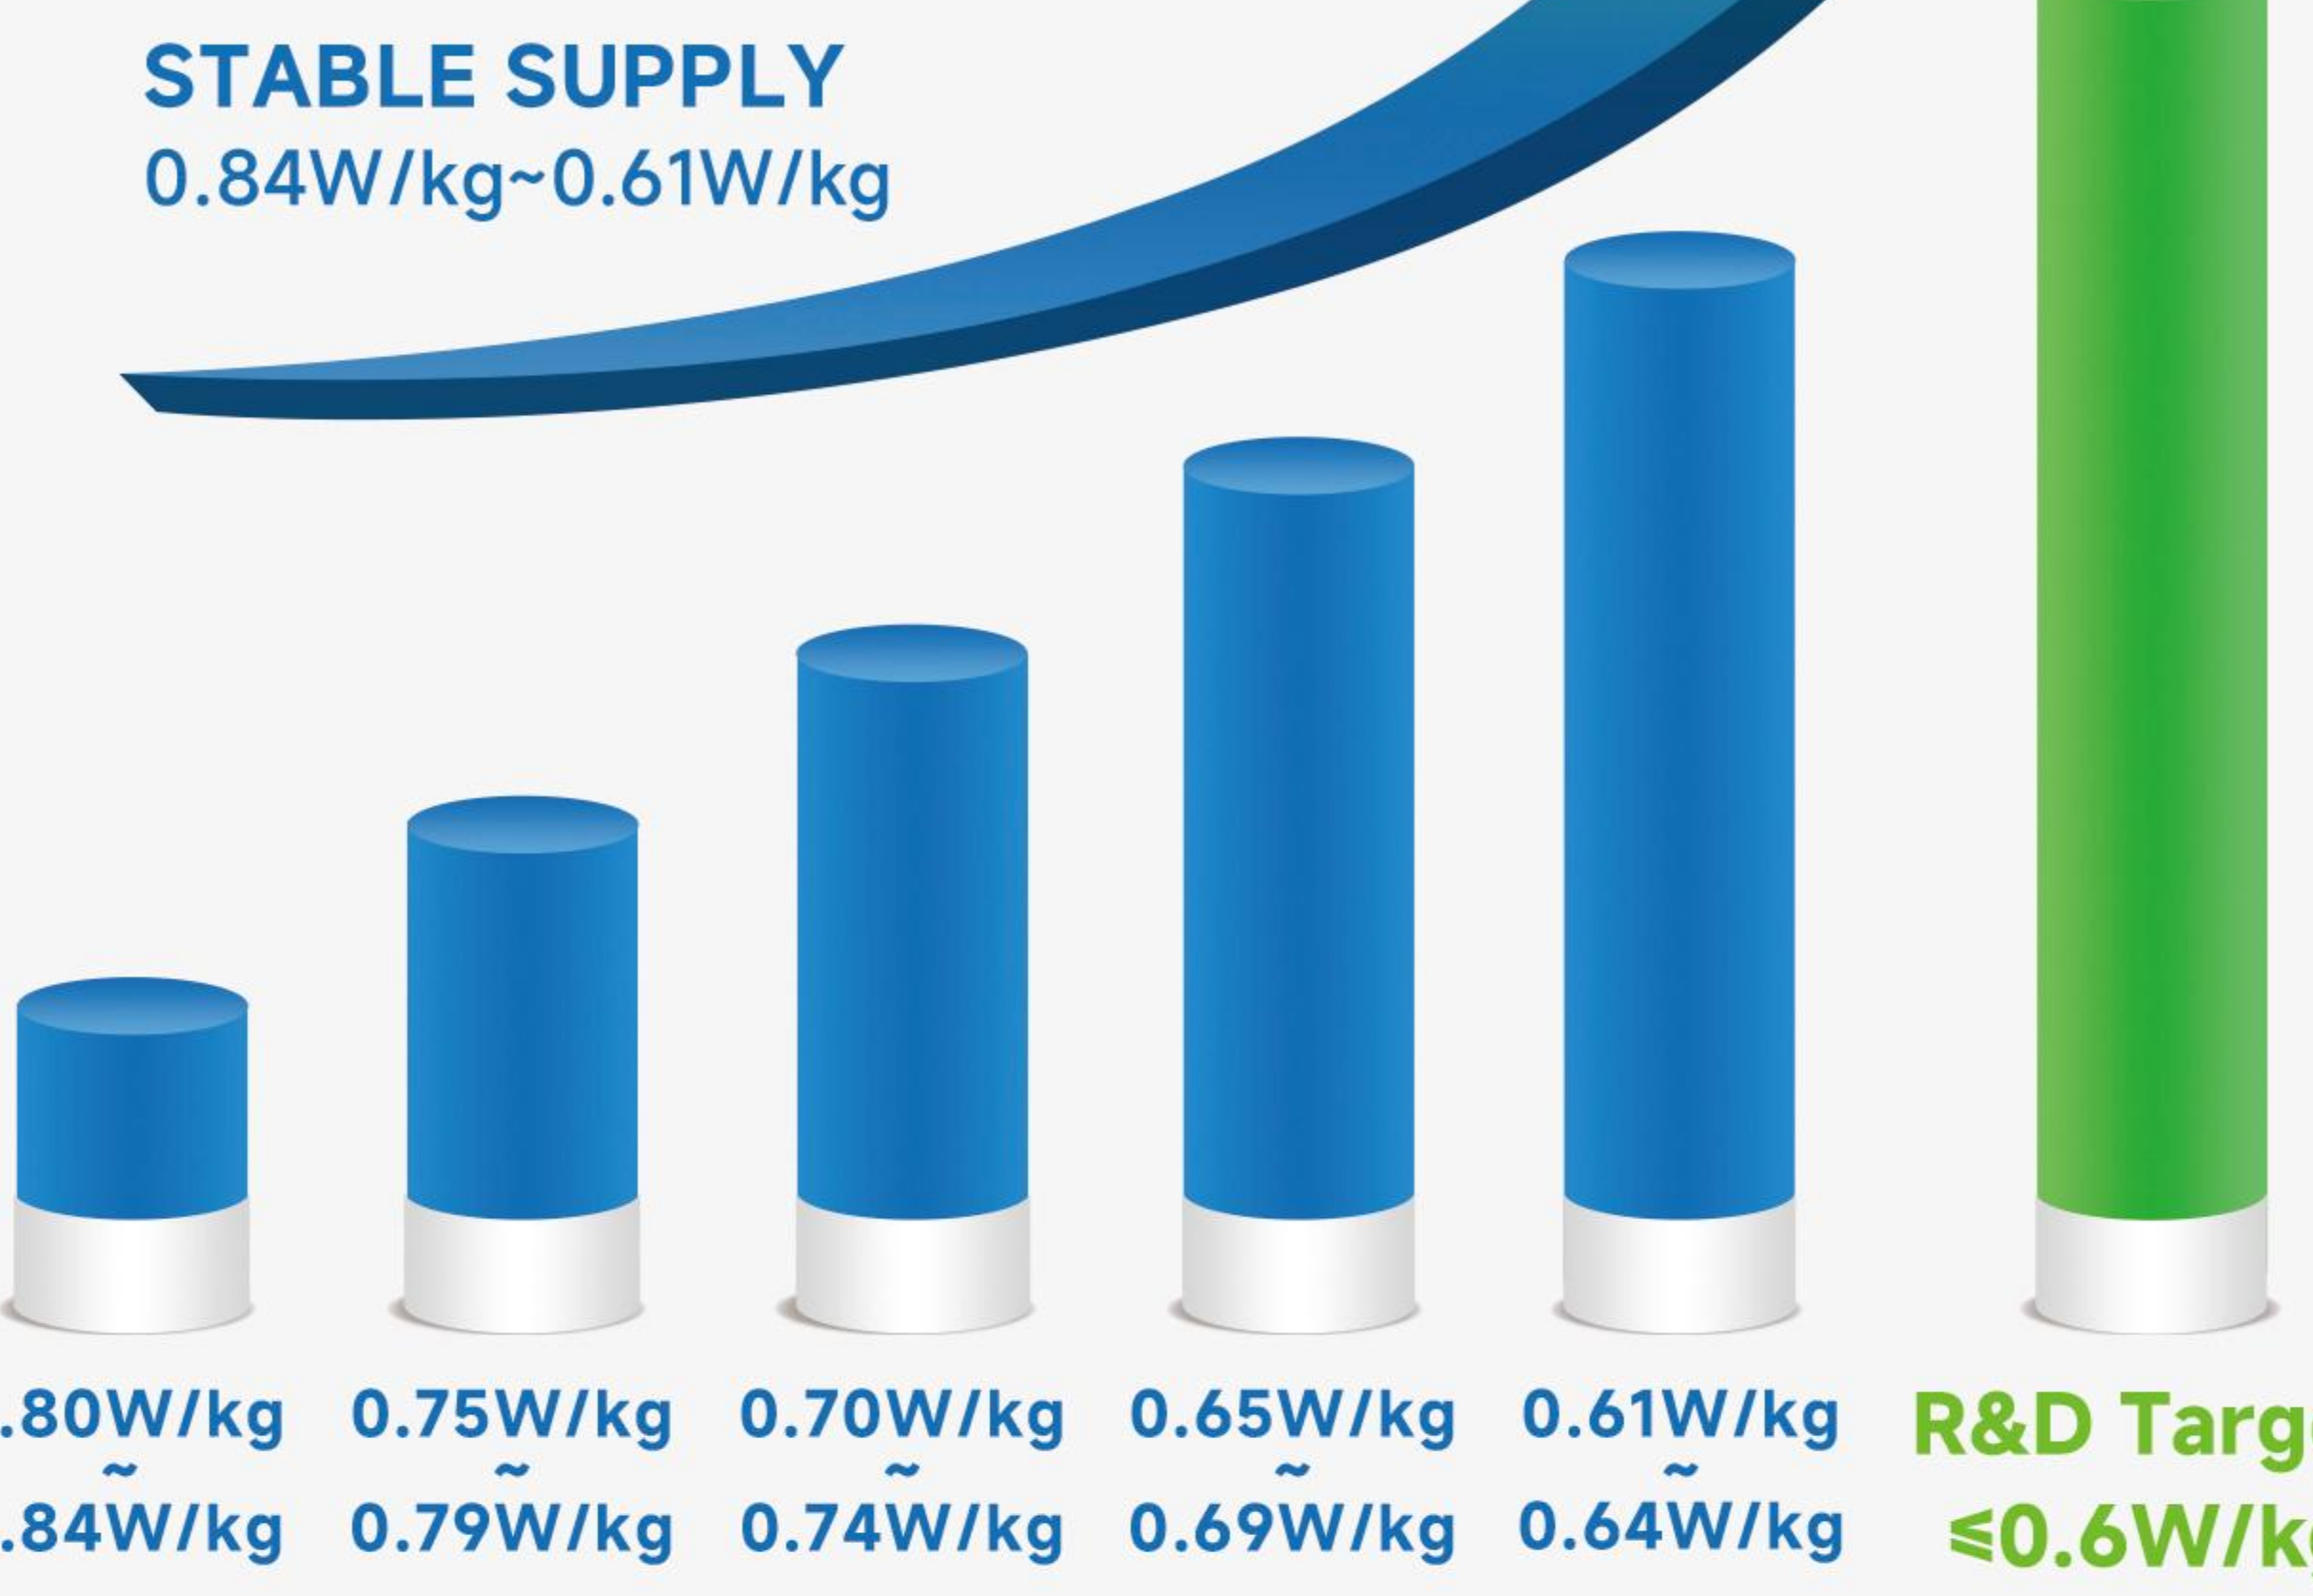

GLOBAL SERVICE NETWORK

Business covers 50+ Countries and Regions

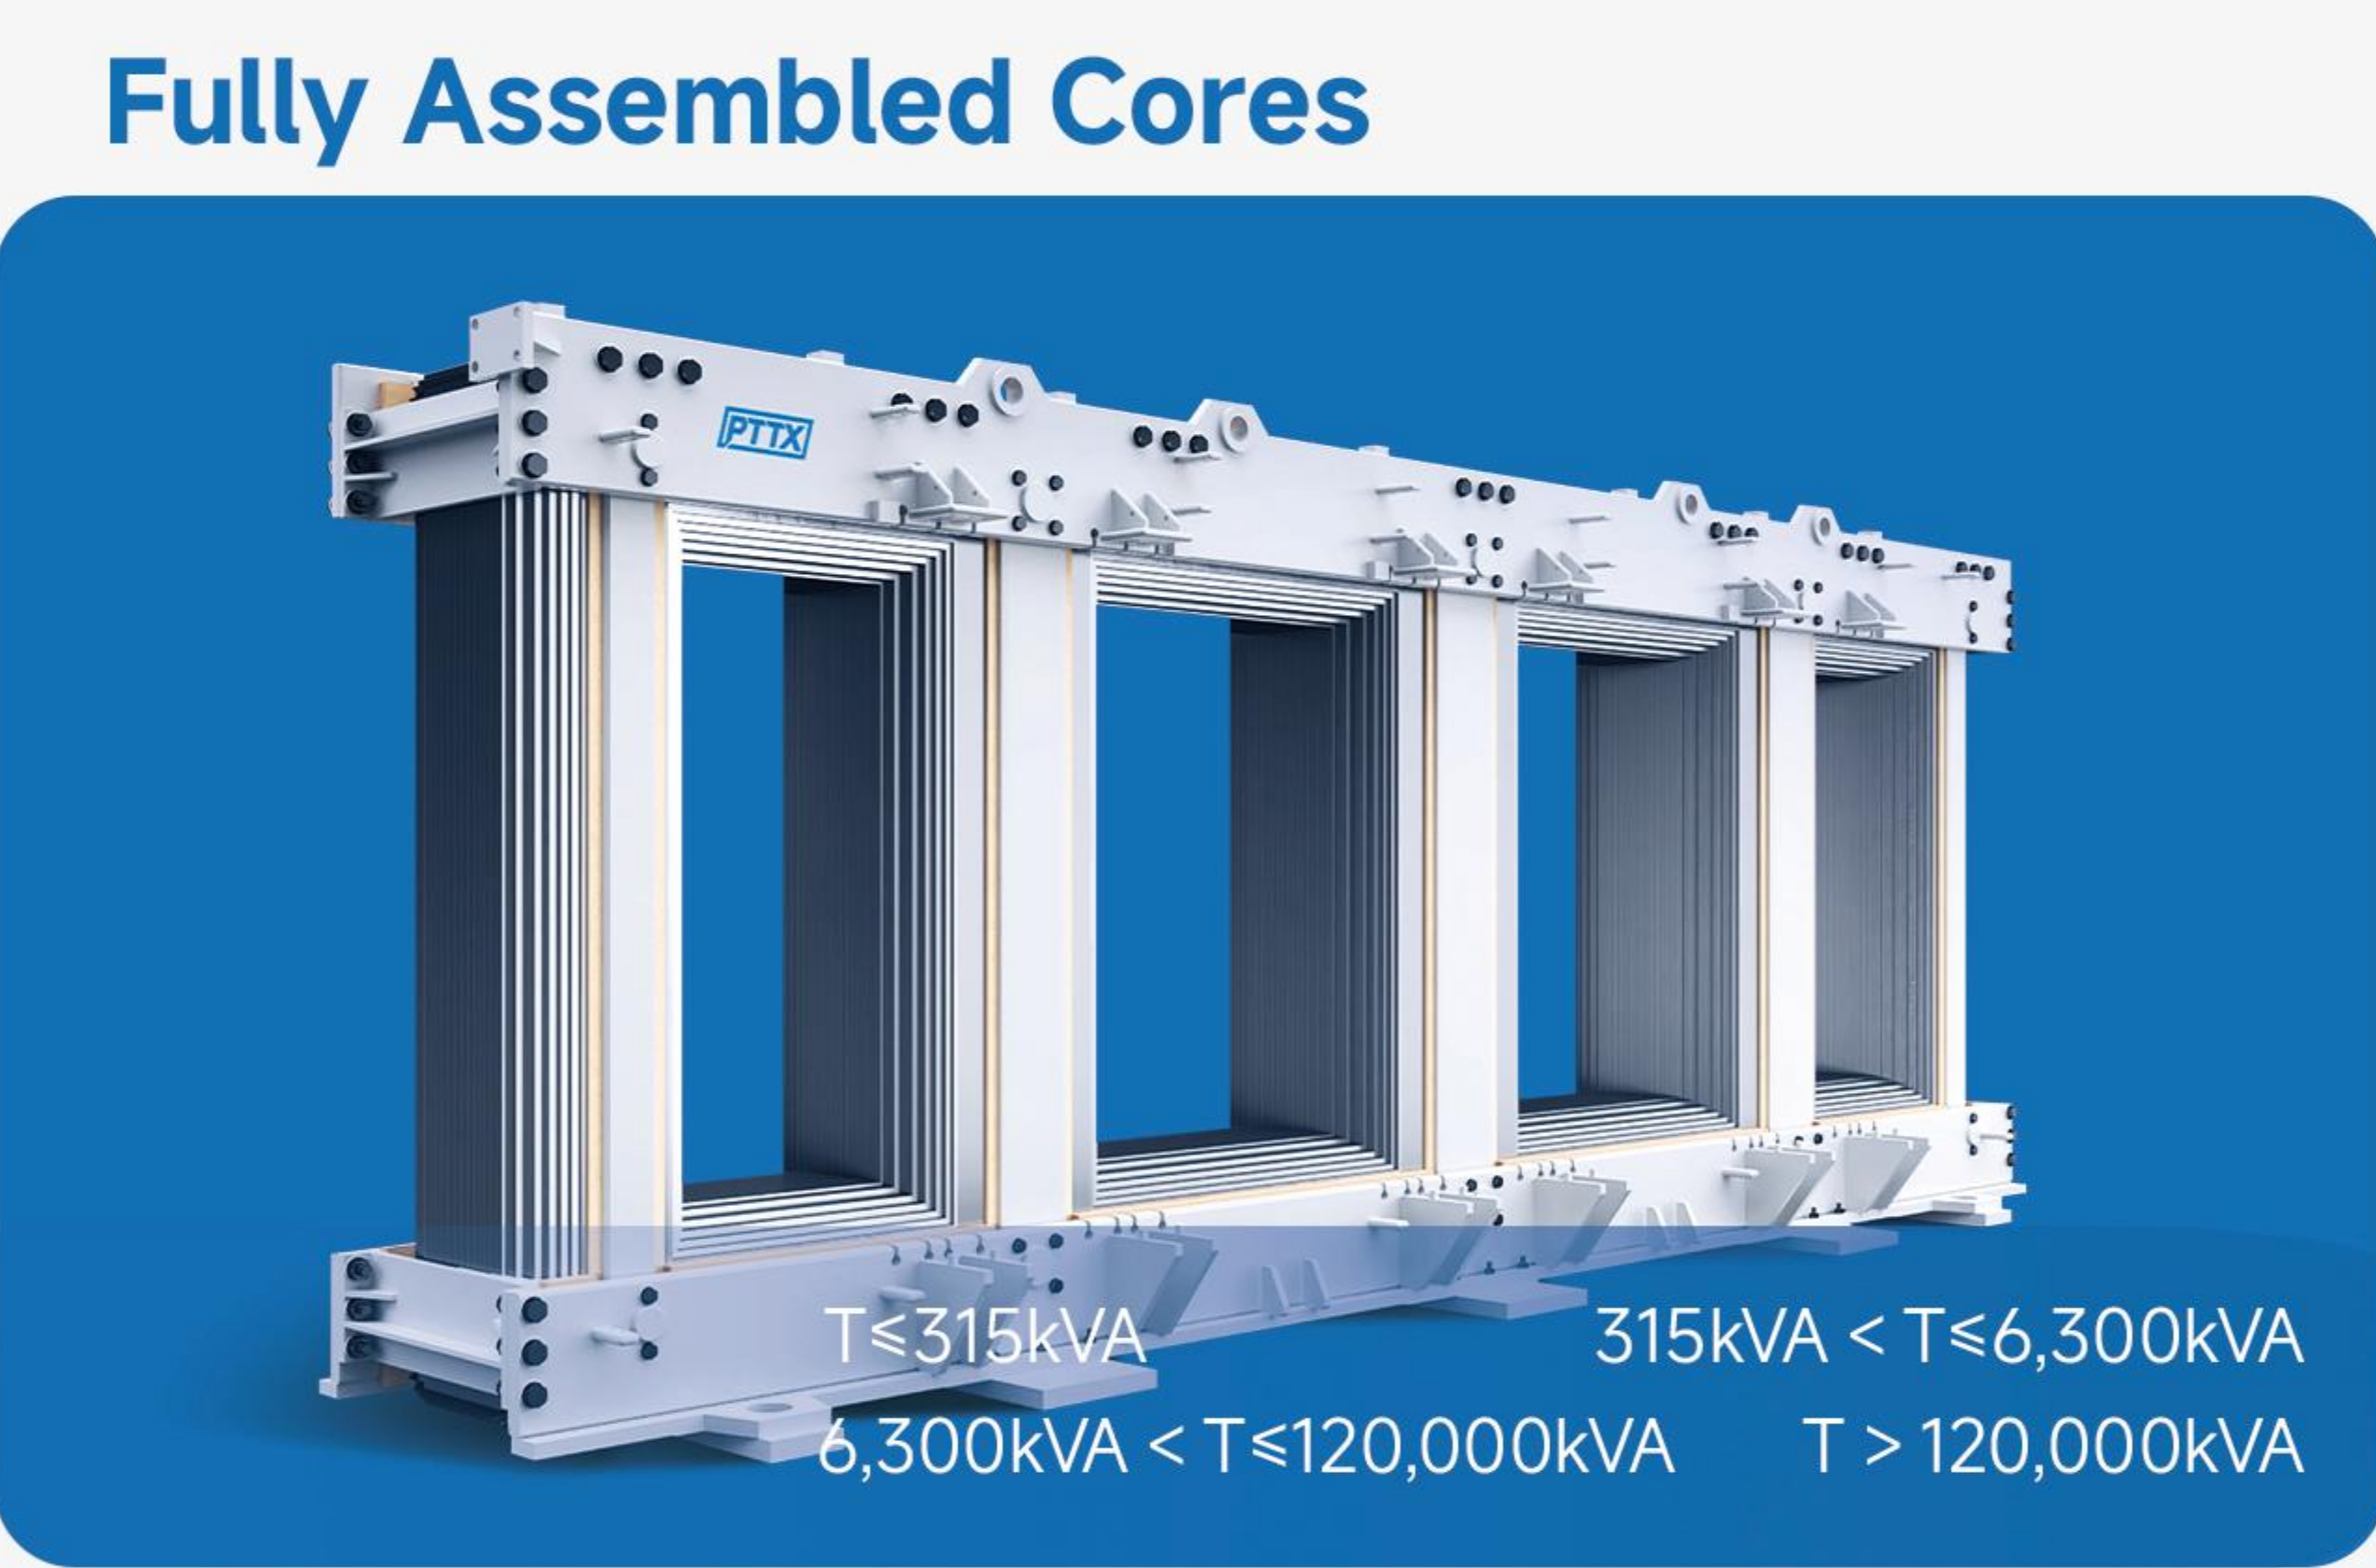

SERIES PRODUCT OF SILICON STEEL

Annual Capacity
300,000 tons

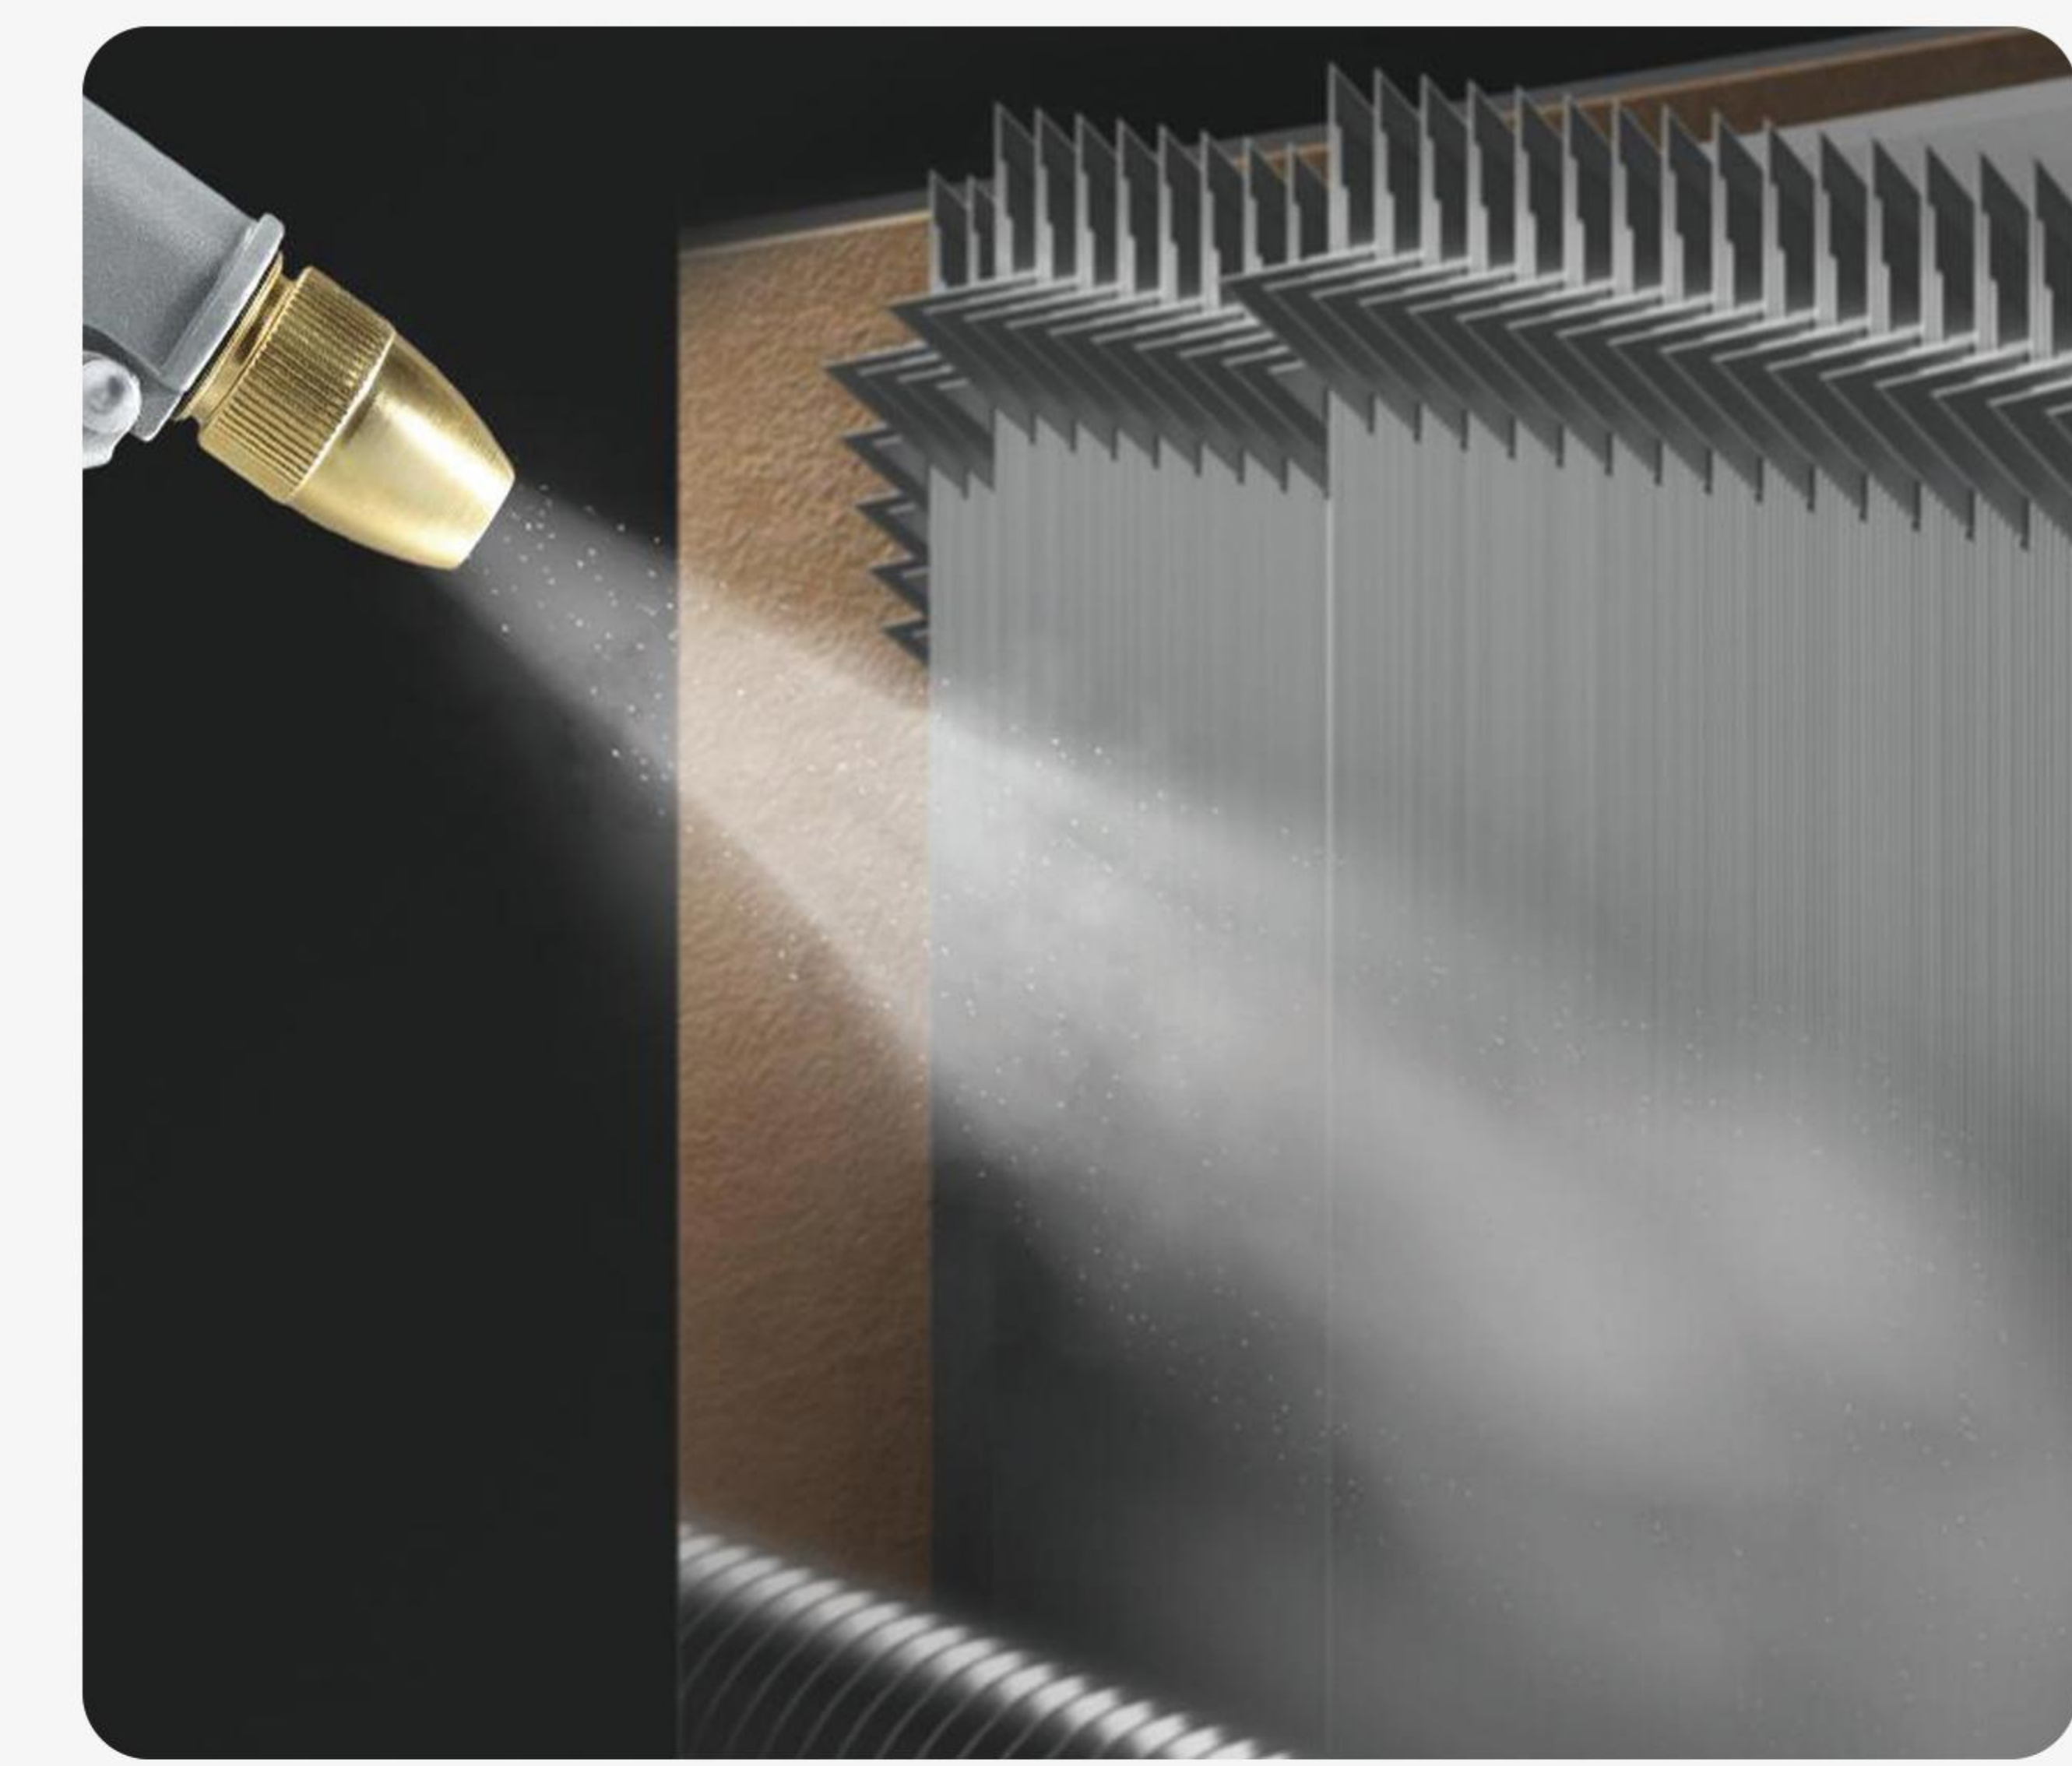

USL Silicon Steel
(Ultra-Stable Low-Loss Silicon Steel)

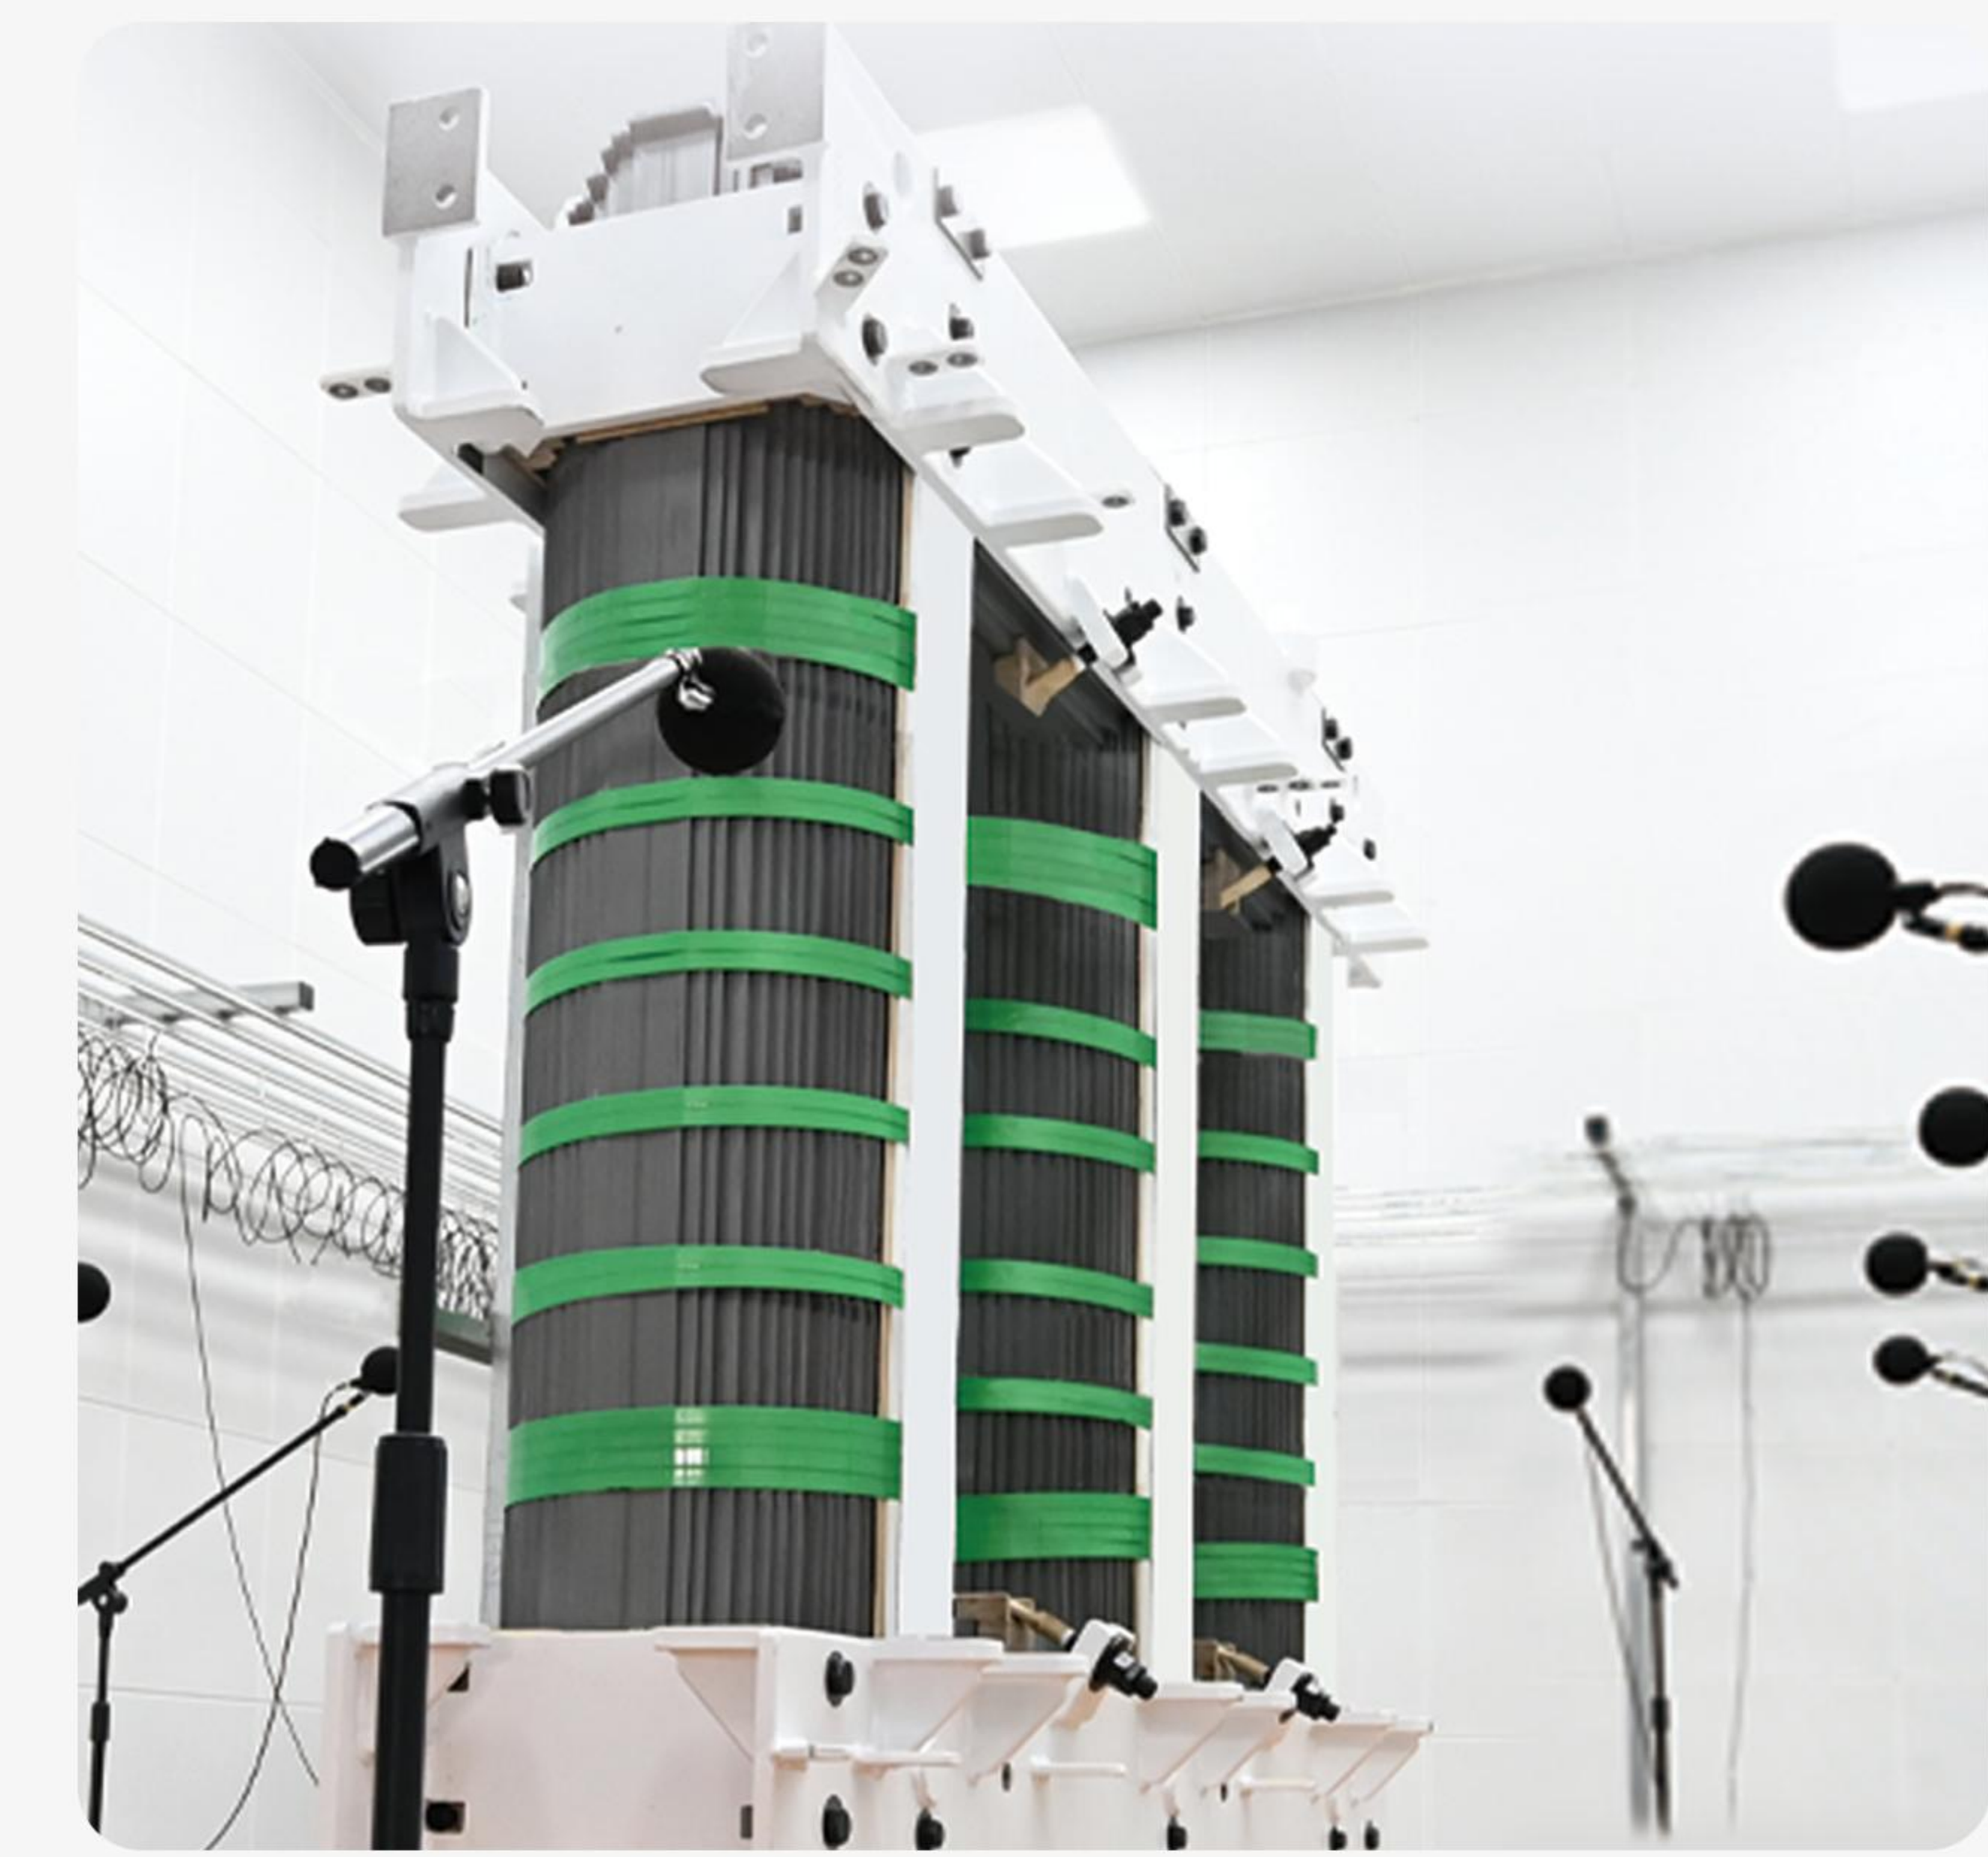

SERIES PRODUCT OF TRANSFORMER CORES

GREEN MANUFACTURING SYSTEM

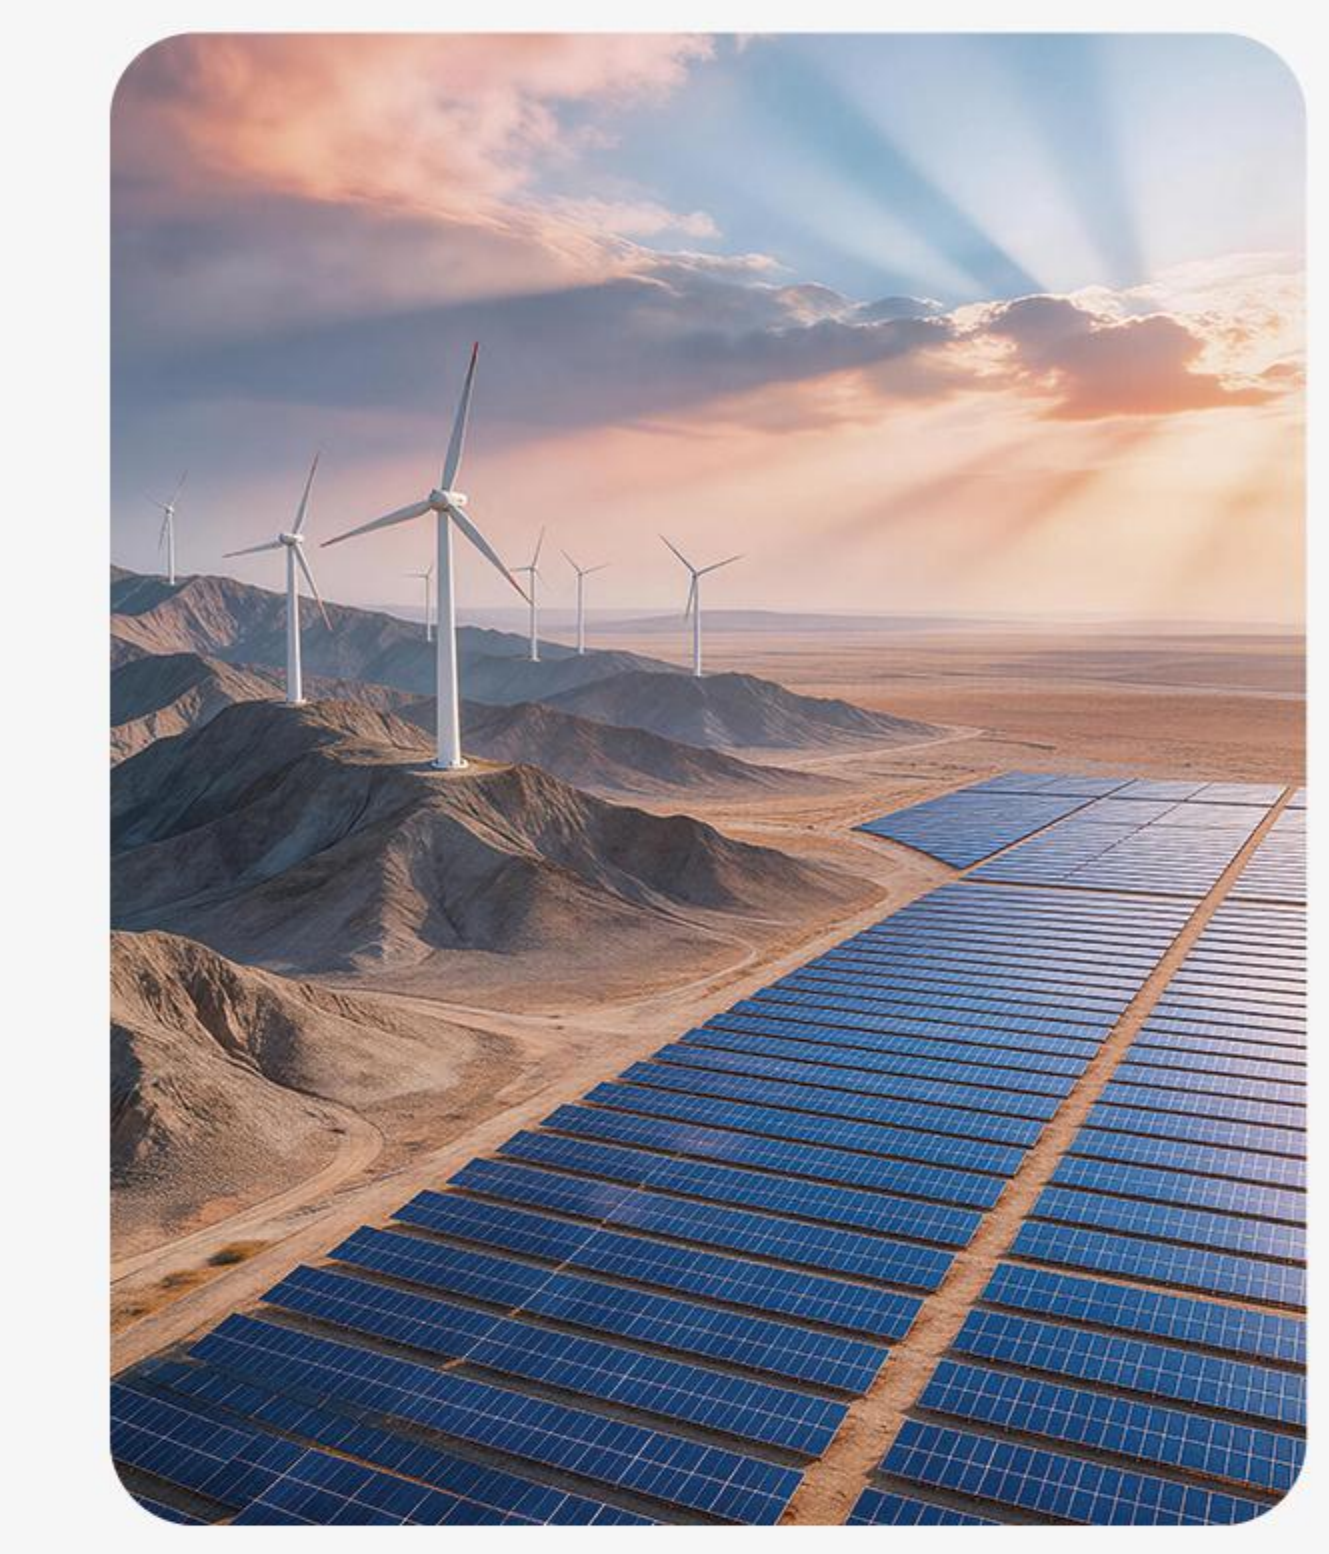

Optimized Hybrid Gas Spraying Process

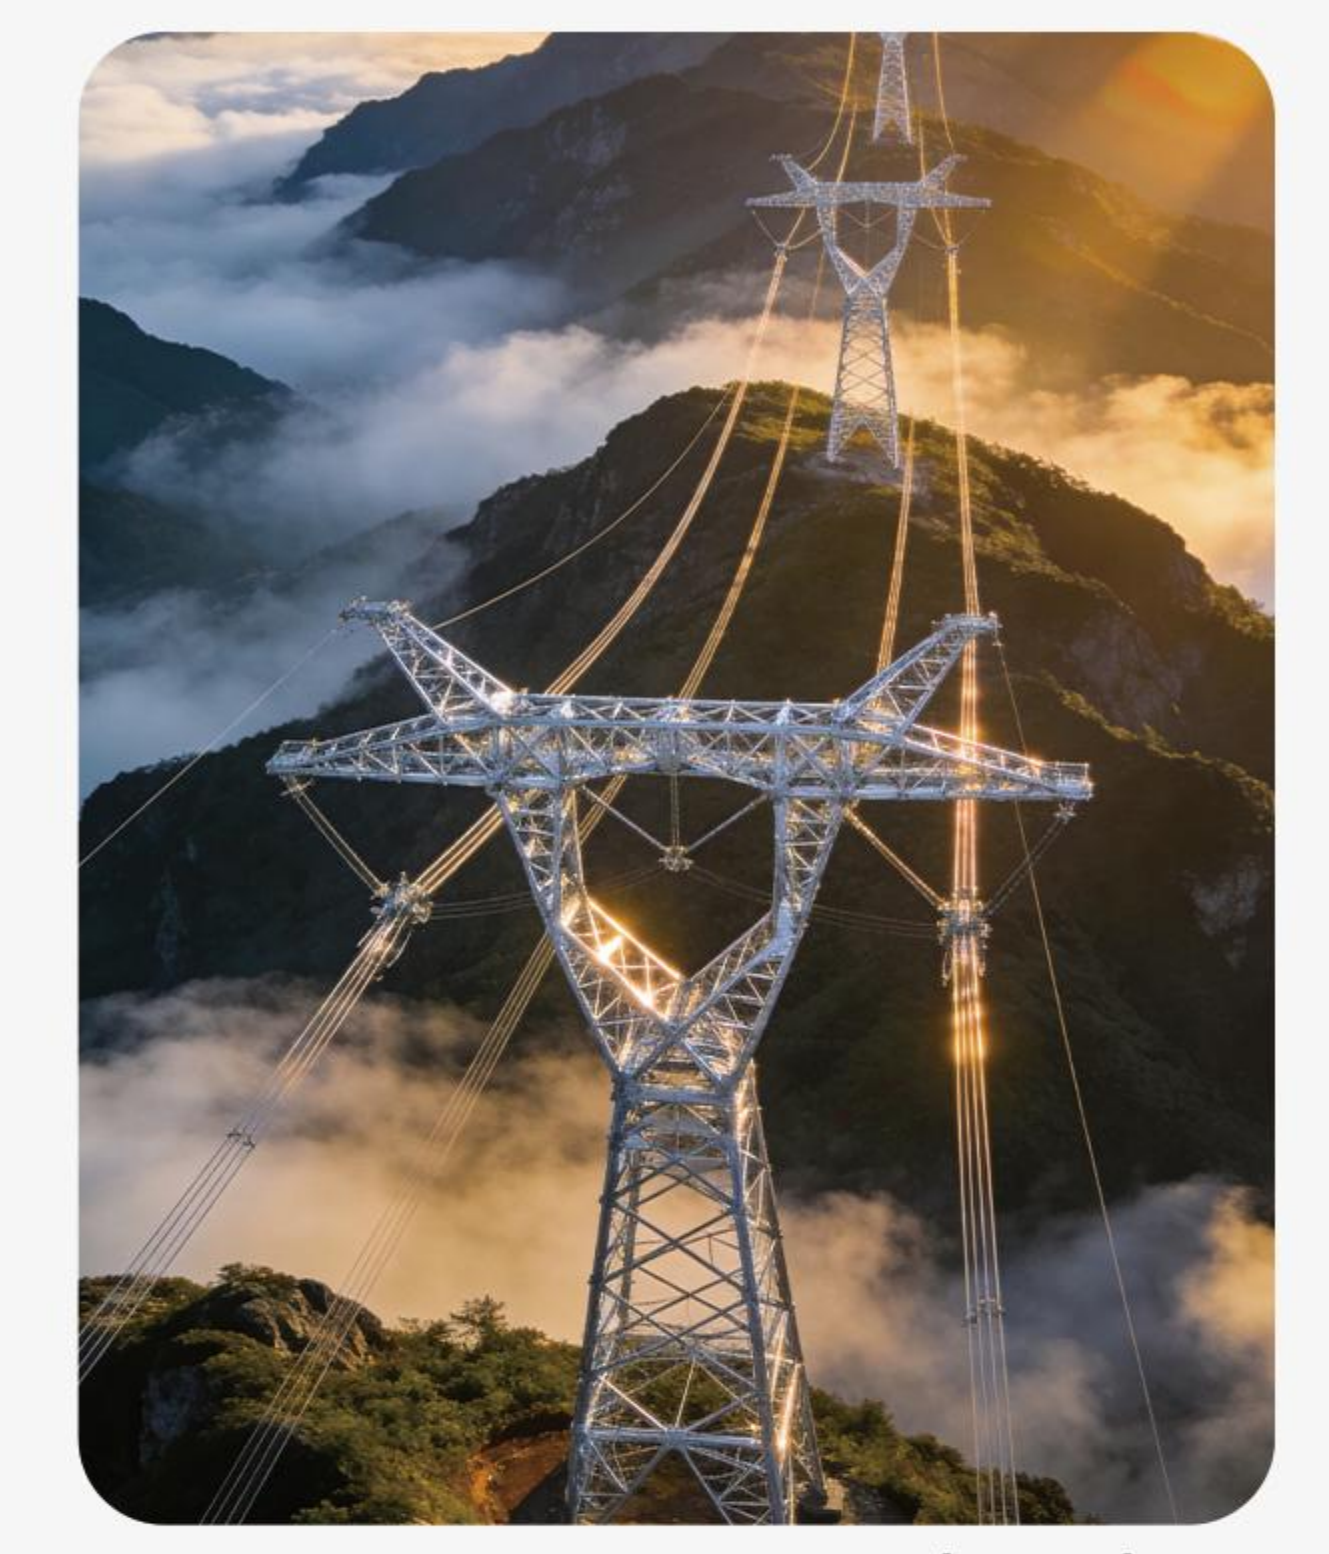

Low-noise Transformer Core

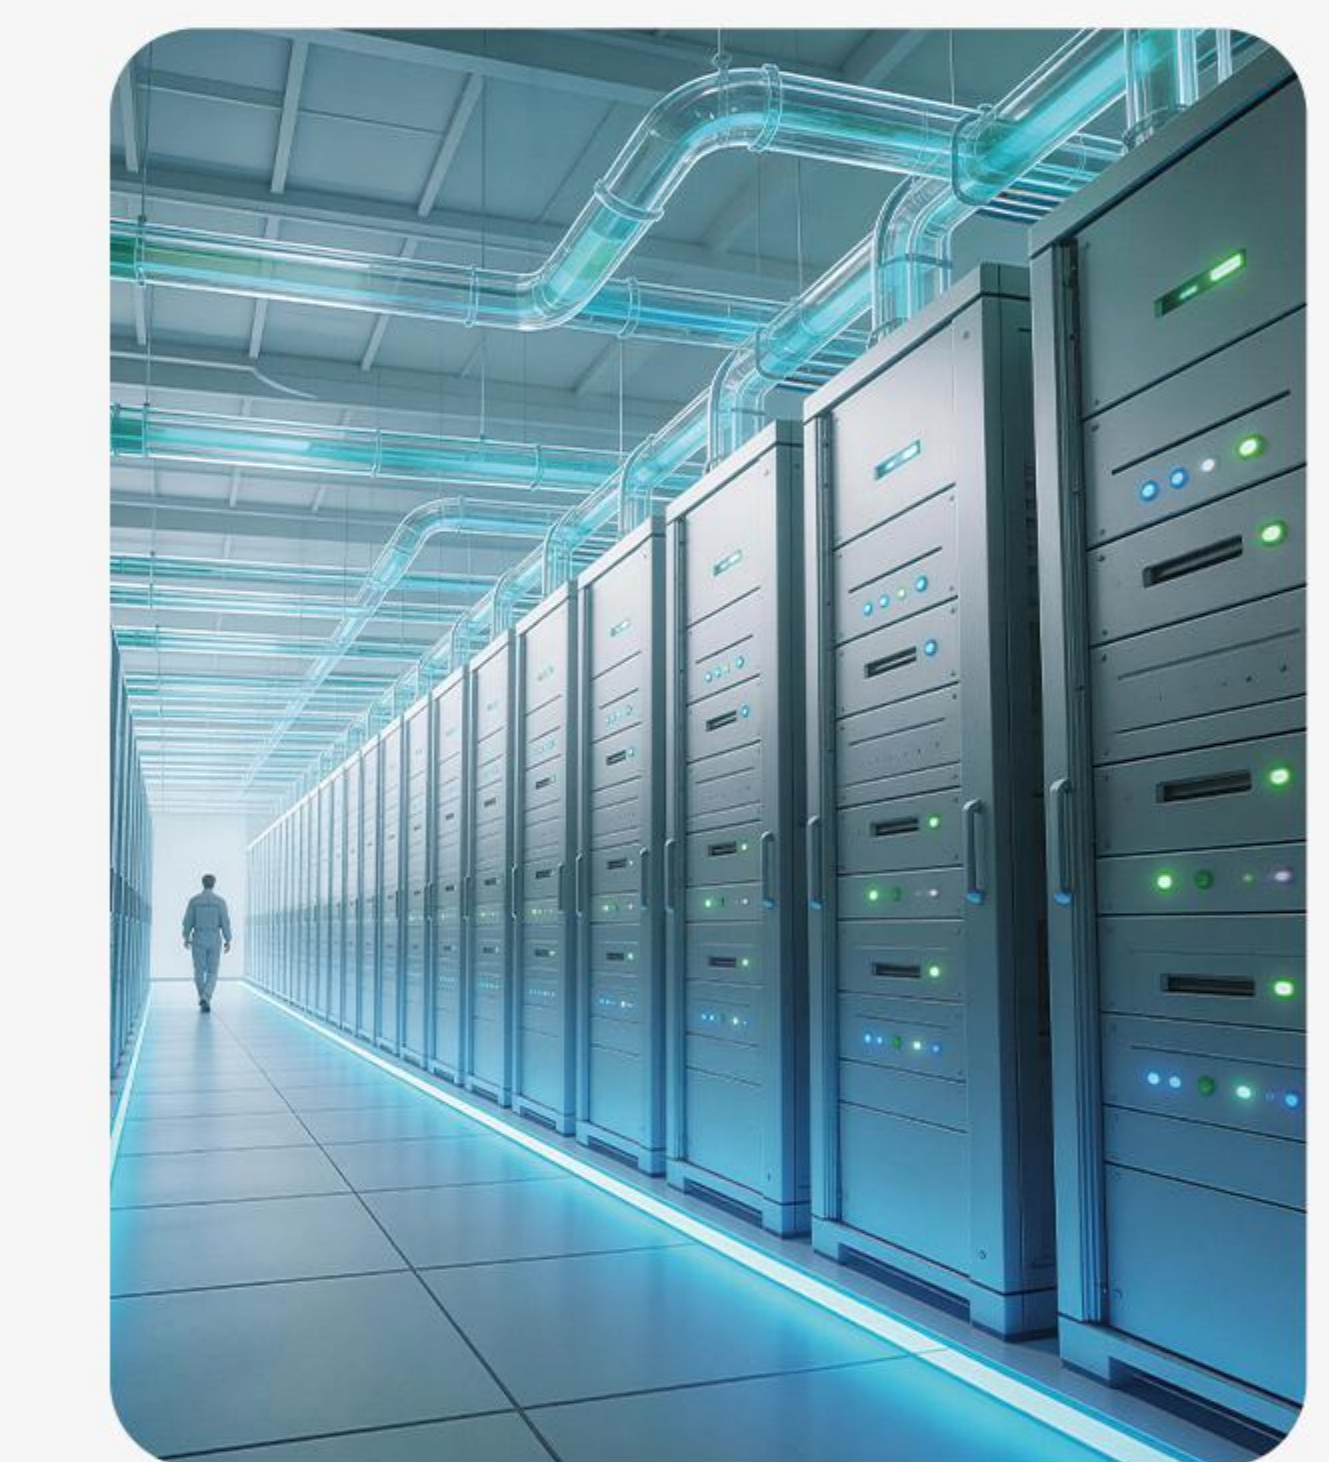

END-USE APPLICATIONS

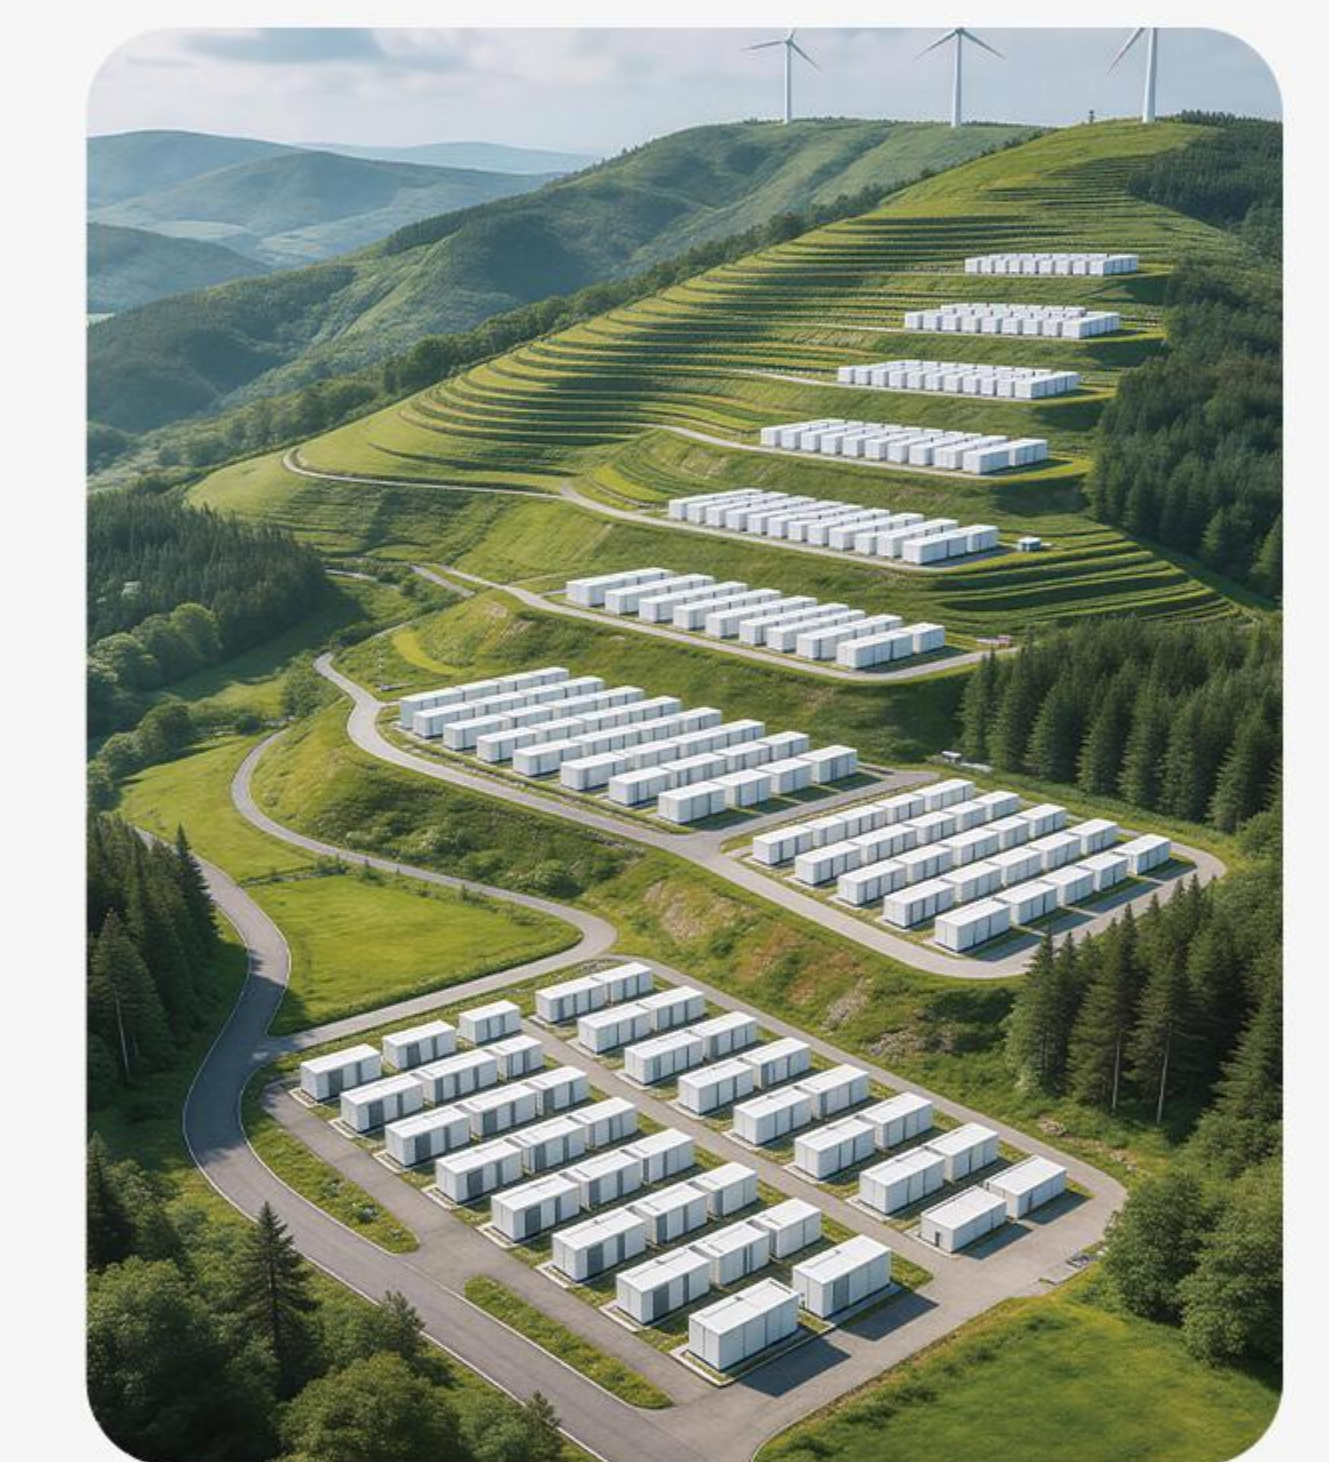

Renewable Energy Power Plants

Ultra-High Voltage (UHV) Transmission

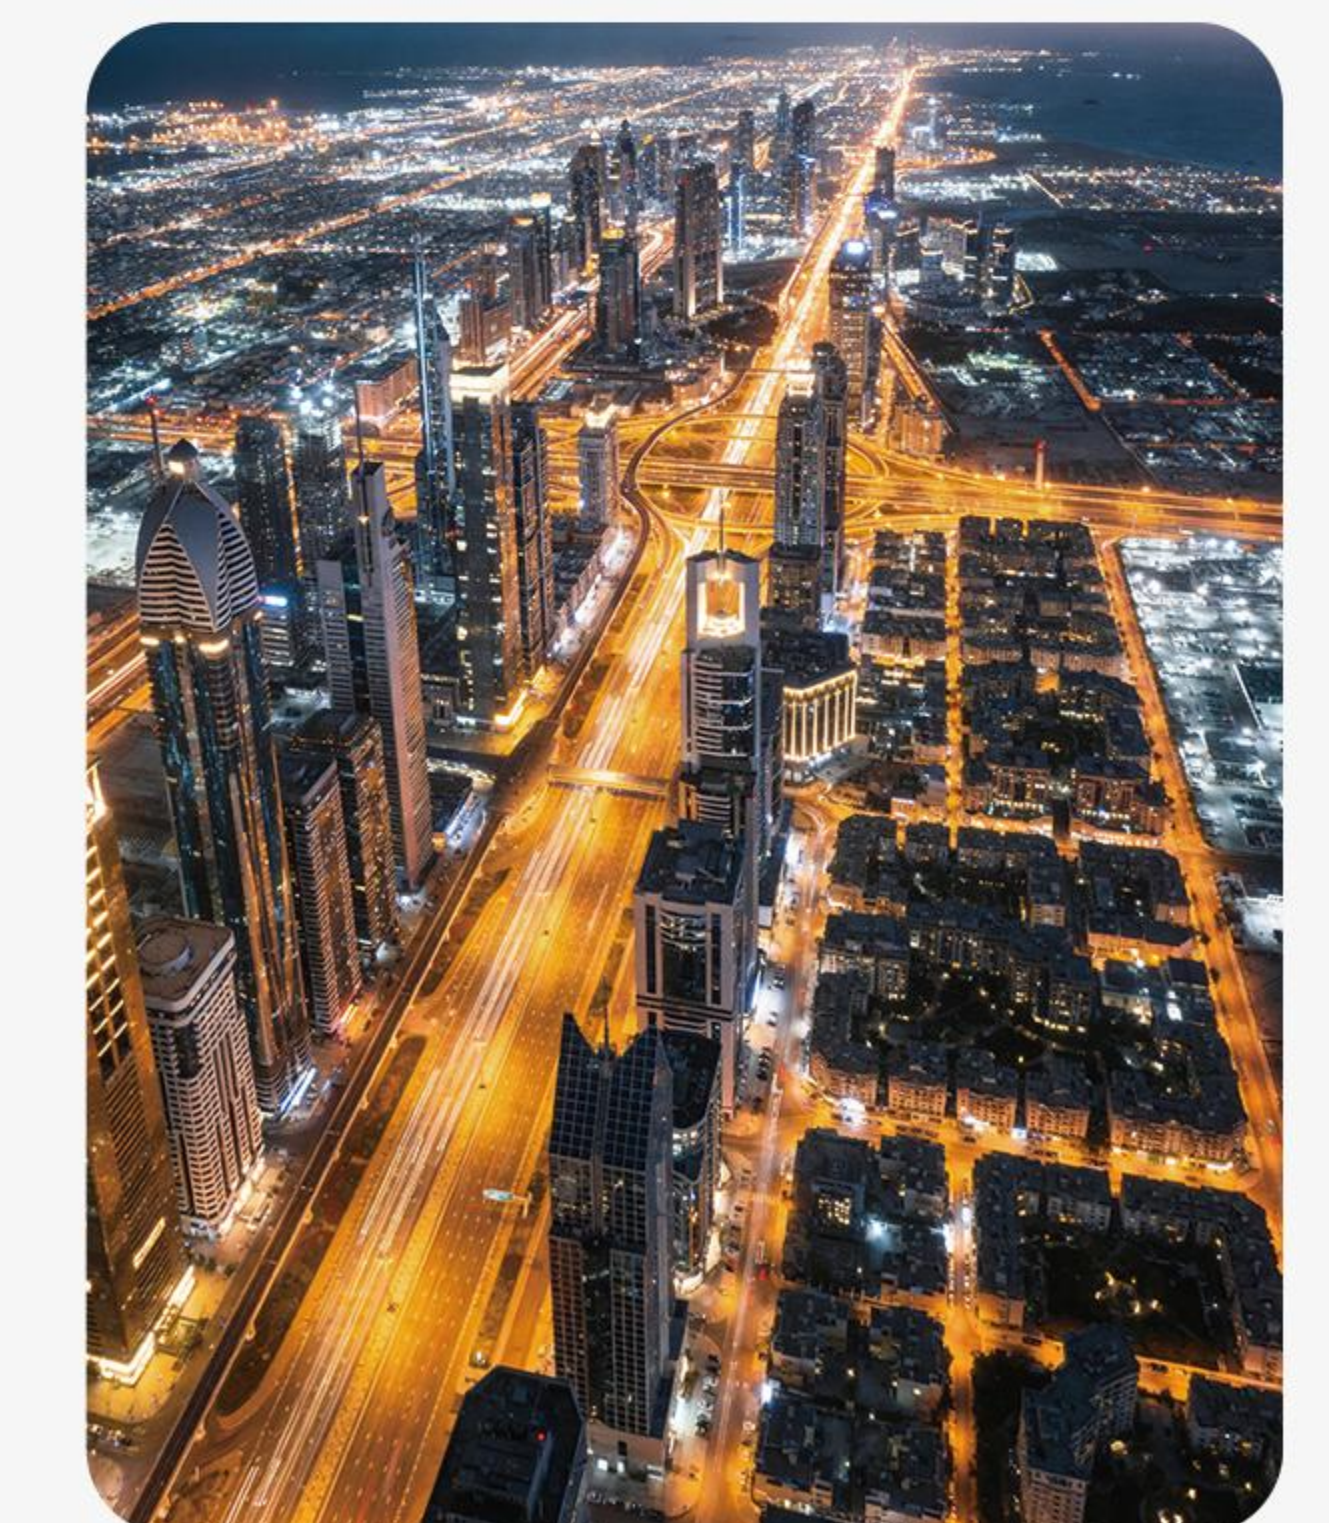

Data Centers

Energy Storage Systems

Rail Transit

Urban Residential Power Supply
