INTRODUCTION

This template is an example for preparing an abstract for the 12th WACBE World Congress on Bioengineering to be held on July 28 - 31, 2026, in Chang Zhou. The simplest way to comply with the requested abstract format is to replace the text in this template with your text. The title is typed in font Arial 14 pt bold. The Authors' names are typed in Arial 9 pt, with the presenting Author in boldface. The Authors' affiliations are typed in Arial 8 pt italics. The email address of the presenting Author is requested, and he/she will be referred to also as the Corresponding Author. Three Keywords are supplied and typed in Arial 8 pt in alphabetical order.

METHODS

The main text is typed in Times New Roman 11 pt. The figure and table legend (Table 1) should be typed in Times New Roman 8 pt (Fig. 1). Any figure should be inserted in the text.

A brief paragraph with Acknowledgements may be added at the end of the main text. A limited number of citations in the text are welcome, and the relevant list of references has to be added at the end of the abstract. The reference should be numbered sequentially as they appear in the text.

RESULTS AND DISCUSSION

All contents, including title, figures, images, tables, acknowledgement and references should fit to one A4 page with 2.5 cm margins on all sides. Single line spacing should be used throughout the paper.

The abstract should be submitted as a Word file with embedded figures or images. The file size however should not exceed 5 MB in order to facilitate the upload process.

Together with the abstract, the Authors have to indicate in the Abstract Submission

Form their preferred mode of presentation, either oral or poster. The Organizing Committee will allocate a limited number of oral presentations, with the remainder as posters. Thus some presentations proposed as oral by the Authors could turn to posters, while no presentations proposed as posters by the Authors will become oral presentations without permission from the Corresponding Author.

Table 1. Title should be typed in Times New Roman 8pt.

Condition	Parameter	Significance
Target	1.2	*p < 0.05
Control	1.3	p = 0.05
Placebo	1.4	p > 0.05

Table Footnotes: *indicates p < 0.05

Each registered participant allows to give maximum two abstract presentations.

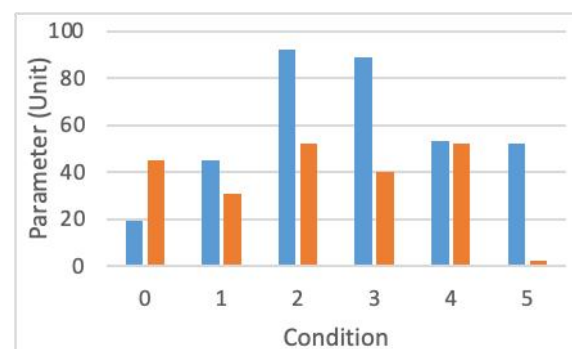

Fig. 1 – The caption(s) of the figure(s) should be typed in this format. The font to be used is Times New Roman 8 pt.

ACKNOWLEDGEMENT

The study was financially supported by the Grant (Ref. No. 12345). The authors thanked all the participants in this study.
