

## **Dear all members of our gd T cell community,**

Although the pandemic of COVID-19 is affecting the science community, the committee of the 9th international gd T cell conference has decided that the conference will take place on November 5-8, 2021 in China onsite (offline) and at the same time online. All the lectures will be recorded and played on our website, at all the participants convenience. At 8 to 12 pm China time (US east time 8 to 12 am, Europe time 2 to 6 pm) each day, from Nov 5 (Friday), to Nov 8<sup>th</sup> (Monday), each evening we will have two sessions online at the same time, and the participants will be able to choose the online session to enter, and to join the discussions. The conference will be open to all the participants, with free of charge, and registration is required at the website. The deadline of abstract submission will be Sep.10, 2021. We will inform the selection of the presentation on Oct 1.

All the information including registration portal will be posted on this website-

### **Sessions and chairs:**

#### **Nov.5 8pm-12pm**

1.  $\gamma\delta$  TCRs (Adrian Hayday, Erin Adams, Yueh-hsiu Chien)
2.  $\gamma\delta$  T Cell Functional Regulations (Wenwei Tu, Willi Born, Rebecca O'Brien)

#### **Nov.6 8pm-12pm**

3.  $\gamma\delta$  T Cell in Tissues (Immo Prinz, Karen Edelblum, Julie Ribot)
4.  $\gamma\delta$  T Cell Development (David Vermijlen, Juan Carlos Zuniga-Pflucker, Michele Anderson)

#### **Nov.7 8pm-12pm**

5.  $\gamma\delta$  T Cell Function in Infection and Inflammation (Julie Dechanet-Merville, Matthias Eberl, Joanne Konkel)
6.  $\gamma\delta$  T cell Function in Cancer (Bruno Silva-Santos, Massimo Massaia, Jessica Strid)

#### **Nov.8 8pm-12pm**

7.  $\gamma\delta$  T cells in Immunotherapy (Dieter Kabelitz, Zhinan Yin, Francesco Dieli)
8.  $\gamma\delta$  T cells in Diseases (Jun Yan, Zheng Chen, Ilan Bank)

We are so looking forward to seeing you!
