

# Sponsorship of the International Symposium on Plasma & Fine Bubbles (ISPFB2022)

---

## I. ISPFB2022 Conference Introduction

"Nanobubble" is an emerging field where the frontiers of water science and nanotechnology intersect. Especially in recent years, the intersection of plasma and micro-nano bubble technology is widely concerned by scholars. The International Symposium on Plasma & Fine Bubbles (ISPFB2022) will be held in Haikou, Hainan from August 22 to 23, 2022. The conference is hosted by the Chinese Society of Particuology and co-organized by Tongji University, Shanghai Advanced Research Institutes (Chinese Academy of Sciences), Donghua University, Southeast University and Hainan University. The first ISPFB (original name ISHPMNB) was held in Thailand in 2017. ISPFB2022 will be the first important international academic conference in the field of micro-nano bubbles and plasma held in China.

ISPFB aims to discuss the latest theoretical and technological progress related to plasma and micro-nano bubbles and their important applications in biology, environment, agriculture, aquaculture, food safety, medicine and other fields. The conference will provide an open forum for relevant domestic and foreign entrepreneurs and academics to introduce and discuss the interdisciplinary innovations of plasma and fine bubbles, bringing together domestic and foreign experts from different fields to work together to continuously promote the development and application of plasma and micro-nano bubbles.

The main topics of the conference include: basic plasma science and technology, plasma bioscience and technology for applications, fine bubble generation and detection, fine bubble technology for applications, and innovative integrated technology of fine bubble and high-voltage plasma for advanced applications. By convening this international conference, the application of plasma and fine bubbles in practical fields will be promoted, and the innovation capabilities in basic

research, life science and ecological environment of the country will be enhanced.

The scale of this conference is expected to be about 200 participants from online and offline. They are expected to be mainly from Thailand, Japan, China, United States, Canada and other countries.

In order to make this international conference well-organized, we hope to get strong support from the industry and business community.

## II. Sponsorship Types

No.	Type	Sponsor fee
1	Gold sponsor	\$3200 / RMB 20000
2	Standard sponsor	\$2400 / RMB 15000

## III. Corresponding Rights of Sponsorship

1. Gold sponsor: \$3200 / RMB 20000	
Rights	<ul style="list-style-type: none"><li>● 2*3m standard booth for free</li><li>● Co. LOGO printed on the booth lintel</li><li>● Co. LOGO and link showed on the conference website</li><li>● Free registration fee for two delegates (with coffee-break)</li><li>● <b>A co. ad. page in the conference manual (self-designed)</b></li><li>● <b>A co. ad. page inside of the conference bag</b></li><li>● Co. text introduction in the conference manual (with the booth number marked)</li></ul>
2. Standard sponsor: \$2400 / RMB 15000	
Rights	<ul style="list-style-type: none"><li>● 2*3m standard booth for free</li><li>● Co. LOGO printed on the booth lintel</li><li>● Co. LOGO and link showed on the conference website</li><li>● Free registration fee for two delegates (with coffee-break)</li><li>● Co. text introduction in the conference manual (with the booth number marked)</li></ul>

## IV. Detailed Map of Booth Area: will be announced later

## V. Sponsorship and Exhibition Procedures

### Step 1. Submit application form

Please fill in the “Intention to Sponsor and Exhibit Registration Information Form” and send it to Ms. Jinghong Li by email ([klxh@ipe.ac.cn](mailto:klxh@ipe.ac.cn)) or by WeChat (ID same as mobile number: 13801242411).

**Step 2. Sign agreement**

Please sign the "Enterprise and Institution Sponsorship and Exhibitor Agreement", stamp the official seal, and return it to Ms. Jinghong Li.

**Step 3. Pay the booth fees**

Please pay the booth fee according to the contract by the time specified in the "Enterprise and Institution Sponsorship and Exhibitor Agreement".

**Step 4. Confirm booth selection**

After the three steps above completed, Ms. Jinghong Li will contact you as soon as the booth selection is open, and send the booth map to you for the booth selection matters.

**Step 5. Preparation of documents and materials for the exhibition**

Ms. Jinghong Li will provide your company with the "Exhibition Instructions and Precautions" in time according to the progress of the conference preparation. All exhibitors should prepare the exhibition materials in advance, submit the materials according to the relevant requirements on time, and ensure that all the exhibition matters are pushed on with a timely and complete manner.

**Step 6. Exhibition material delivery**

Exhibitors should complete the delivery of the exhibition materials by themselves according to the "Requirements for the Delivery of Exhibit Materials" and the time set by the conference organizing committee.

**Step 7. Setting up the exhibition**

Generally, the exhibitions should be moved to the venue and arranged one after another according to the venue construction time provided by the hotel.

**Step 8. Withdrawing the exhibition**

According to the conference schedule, generally after the last day of the conference, the exhibitors should withdraw the exhibition and send the materials back.

## **VI. Contact Information for Exhibition**
