Welcome Address

Dear Friends and Colleagues,

I am Dai-Ming Fan, the President of the Asian Pacific Digestive Week Federation.

On behalf of the Asian Pacific Digestive Week Federation, I would like to congratulate Professor Min-Hu Chen together with his team for hosting the Asian Pacific Digestive Week, or APDW 2022 Congress jointly with the 22nd Congress of Gastroenterology China.

The APDW Congress is the flagship of the Federation, and the platform through which its four Founder Members, namely, the Asian Pacific Association of Gastroenterology, the Asian-Pacific Society of Digestive Endoscopy, the Asian Pacific Association for the Study of the Liver and the International Society of Digestive Surgery- Asia Pacific Section envision to bring about greater collaboration across the region.

One of the missions of APDWF is to promote and co-ordinate discussion and exchange of ideas and results relating to the diagnosis, treatment, research and prevention of digestive diseases throughout Asia-Pacific countries and beyond. The Board is glad to see that the APDW 2022 is carrying out this important tradition once again, bringing gastroenterologists, hepatologists, endoscopists, surgeons and allied health professionals together for this multidisciplinary programme.

The Local Organising Committee has done a wonderful job in inviting a diverse selection of eminent doctors and scientists not just from Asia-Pacific Region, but around the world and I have no doubt that everyone will take back important lessons over the next few days to bring your practice to new heights.

The past 3 years have been especially difficult for collaboration. The spread of the devastating Covid-19 Pandemic has forced the world of medical education into the digital age, and APDW 2022 is no different. Although we are fortunate that the virtual space has allowed medical education to continue unhindered, physical isolation has seen a significant drop in exchanges between doctors from different nations.

While I regret that the development of Covid-19 in China in recent months has resulted in APDW 2022 going fully virtual and depriving us from Xi'an's wonderful hospitality, I can draw comfort from the knowledge that Prof Min-Hu Chen and his team have delivered a worldclass scientific program fully embodying the missions of APDWF.

I would like to express my sincere thanks to the committee for pushing on despite the monumental difficulties they have faced in these trying times to promote medical education in the Asia-Pacific Region.

Thank you, and I trust the next few days will be fulfilling for everyone.

Prof. Dai-Ming Fan
President, Asian Pacific Digestive Week Federation

Dear Professor Fan Dai-ming, the President of APDWF, Mr Wang Da Fang from Chinese Medical Association, dear Colleagues and Friends, ladies and gentlemen,

On this important occasion, the opening of Asia-Pacific Digestive Diseases Week 2022, jointly with the 22nd Congress of Gastroenterology China, I would like to congratulate on behalf of Chinese Society of Gastroenterology, and to welcome all the delegates from Asia-pacific regions and all over the world, to participate in this conference.

This year's APDW, jointed together with the Annual Congress of Chinese Society of Gastroenterology, will be an online virtual meeting. A large panel of renowned experts within and outside the Asian-Pacific region will share their latest innovations and unique experience in the field of gastroenterology, GI endoscopy, GI surgery and hepatology, from basic research to clinical practice. The APDW and CGC remain committed to promoting the exchange of our experience in digestive diseases and expanding continued education in the Asian-Pacific digestive community. In view of the comprehensive program, I believe it will be another academic feast for our fellow colleagues to share scientific discoveries and advance education at this APDW2022 and CGC2022.

This is the third time the APDW held in Mainland China. Chinese Society of Gastroenterology, together with Chinese Society of Digestive Endoscopy, Chinese Society of Hepatology and Chinese Society of Surgery, under the umbrella of Chinese Medical Association, have made great contributions to the APDWs in Beijing, Shanghai and Xi'an. Although so many uncertainties caused by the pandemic have been overcome, it is still not feasible to hold the conference onsite in the historical and cultural city of Xi'an. The Local Organizing Committee had to transform the APDW2022 from a hybrid format into an entire virtual meeting in the last minute. We are grateful to the Local Organizing Committee led by Professor Kaichun Wu, collaborating closely with APDWF for their great efforts and contribution to make this event possible. My special thanks also go to the Chinese Medical Association and the Medical Association of Shaanxi province for their support. Thank you!

I wish the APDW2022 and CGC2022 to be a productive and successful one and all participants enjoy your time during the conference. Thank you for your attention.

Prof. Minhu Chen
President, Chinese Society of Gastroenterology
President, 22nd Congress of Gastroenterology China
Executive President, Asia-Pacific Digestive Diseases Week 2022

Dear faculties, friends and colleagues

On behalf of the congress of APDW 2022 and its chairmen, it is my great honor to extend our warm welcome for all of you to this year's APDW to be held on November 17th to 20th, 2022 in Xi'an, China.

Asian Pacific Digestive Week is the topmost digestive conference in the Asia Pacific region, with cutting-edge digestive science and technology in research and practice.

In Hong Kong 2017, we were very honored to be the host of APDW meeting in Xi'an and were indebted to the APDWF, and its member associations for their supports.

The congress of APDW 2022 is the joint hosts, including Chinese Medical Association, Chinese Society of Gastroenterology, Chinese Society of Hepatology, Chinese Society of Digestive Endoscopy and Chinese Society of Digestive Surgery. We would like to thank the congress hosts, Honorary Advisers, Executive President, especially the local Organizing and Scientific Committees, and also the Secretariat for their dedicated work and great contributions for this big event success.

Certainly, we highly appreciate and deliver our gratitude to the sponsoring enterprises, international associations, and over 200 faculty members who are from 26 countries and regions, we thank you for your friendly and firmly support all the time.

Undoubtedly, we would like to thank our enthusiastic and active audiences to attend this APDW virtual meeting, due to the restrictions of epidemic control, offline participants are currently not allowed. We hope all participants to have fruitful time during the conference, and wish all of you safety and health, and welcome all of friends to visit China in the near future.
