# 01 Why Join WGC2025

## Top gathering event of the global gas community

The World Gas Conference is the global gas industry's pre-eminent event, gathering the global gas community every three years, at a comprehensive conference and trade exhibition. It is the most important flagship event owned by the International Gas Union (IGU), an international institution representing over 90% of the global natural gas production and consumption market.

The first edition of the World Gas Conference (WGC) was held in London, United Kingdom, in 1931. Up to date, 28 editions have been held. The 29th World Gas Conference (WGC2025) is the first of these to visit China. It will take place from 19-23 May 2025, in Beijing.

Under the Presidency of Madam Li Yalan, the IGU is steering a three-year programme committed to "Maximising Gas Benefits" on behalf of the industry through its global advocacy. The culmination of this agenda will be presented at WGC2025 under the theme "Energising a Sustainable Future".

## Unprecedented Scale, Breaking Historic Records

This Conference is expected to attract over 30,000 participants from more than 70 countries and regions, covering the entire natural gas value chain. It is anticipated that over 360 exhibitors will gather at WGC2025.

70+

Countries

100+

Sessions & Keynotes

600+

360+

Exhibitors

3500+

Delegates

600+

Speakers

50000M<sup>2</sup>

Gross Exhibition Area

30000+

Trade Visitors

## Engage with new and established markets at WGC2025

Each World Gas Conference builds on the legacies built by prior events. Most recently the United States (2018) and Republic of Korea (2022) hosted WGC. While each was globally focused, they were unique in incorporating the culture and industry networks of the host country.

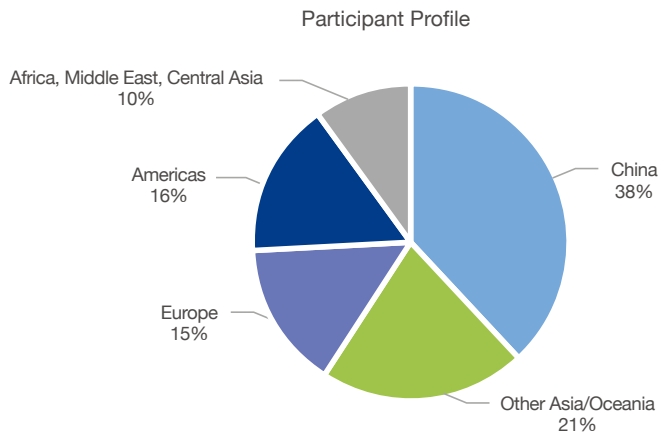

The 2025 edition of the Conference will follow this tradition. WGC2025 introduces exhibitors and sponsors to new markets and networking opportunities within China's sphere of engagement and geography.

China is investing in global energy development through its Belt and Road Initiative addressing energy poverty and opening development opportunities in emerging markets which have been under-represented at other global conferences.

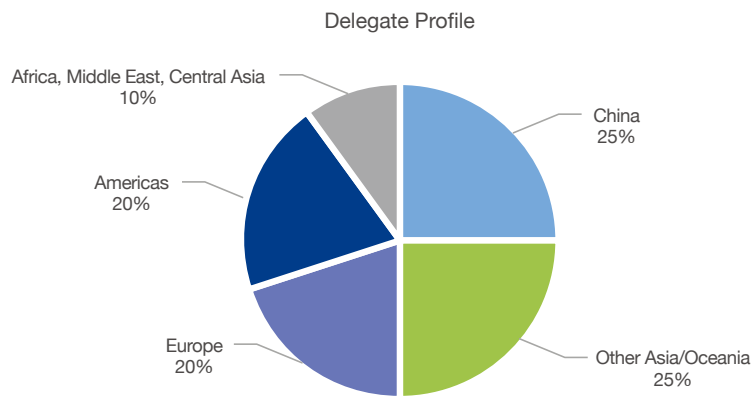

China and its neighbours (Korea and Japan) are the leading LNG import destinations and central to the gas supply chain with their shipbuilding and engineering construction expertise.

China is also home to a vibrant manufacturing industry and a leading player in complementary renewable energy infrastructure development.

Only at WGC2025 will participants engage with industry representatives across established and emerging markets. The geographic mix is projected\* as:

The participant mix is comprised of conference delegates (15-20% of all participants) with access to the entire event and the balance only visiting the exhibition. The conference delegate tends to occupy more senior positions and has a wider geographic profile:

\* projection is based upon LNG2019, the last IGU event of similar scale to visit China

# 02 Who Will You Meet at WGC2025

It is estimated that over 3,500 delegates; senior technical, commercial, strategic executives will participate in WGC2025. The Conference programme is designed to cover the entire gas value chain to attract broader involvement.

WGC2025 will be a grand gathering of the most influential leaders and policy-makers from around the world. Ministers, CEOs and association leaders will unite under one roof to discuss the latest trends and current hot topics.

With the active participation of the industry leaders and senior executives, there will be a sharing of knowledge and insights to achieve a joint vision.

WGC2025 is expected to bring together over 360 global gas and energy exhibitors; covering integrated energy and energy service companies, and almost all of the top 50 oil and gas players.

Engage and network with other industry peers to explore collaboration on vast business opportunities.

Covering a gross exhibition area of 50,000 square metres, WGC2025 will attract engineers, purchase, executives, corporate executives, among others, across the value chain.

# 03 Past Conferences

As the world's oldest international energy industry event since 1931, when the first World Gas Conference was held in London, governments of host countries have attached great importance to WGCs with several editions witnessing the attendance of head of states and ministerial-and-above-level government officials. Throughout history, WGC has been hosted in 23 cities across 15 countries, including France, UK and the US that have hosted the event more than once.

**WGC2009**  
Argentine President Cristina Fernandez de Kirchner attended the opening ceremony

**WGC2012**  
Malaysian Prime Minister Najib Razak presided over the opening ceremony

**WGC2022**  
Korean President Yoon Seok-yeol addressed the opening ceremony

	Time	Head of States and High-level officials Presence in WGCs	Net exhibition area/m <sup>2</sup>	Number of trade visitors	Number of exhibitors
WGC2012 Malaysia	4-8 June, 2012	Malaysian Prime Minister Najib Razak presided over the opening ceremony and delivered a speech	11,128	13,803	280
WGC2015 France	2-5 June, 2015	French Foreign Minister Laurent Fabius delivered the keynote speech	17,121	14,000	350
WGC2018 The United States	25-29 June, 2018	US Secretary of State Mike Pompeo attended and addressed the VIP Forum; Then Secretary of Energy Perry attended and addressed the opening ceremony	14,661	11,500	310
WGC2022 Republic of Korea	23-27 May, 2022	President Yoon Seok-yeol addressed the opening ceremony; Former United Nations Secretary-General Ban Ki-moon delivered a keynote speech	11,875	9,445	152

## Exhibition Area Analysis of Previous WGCs

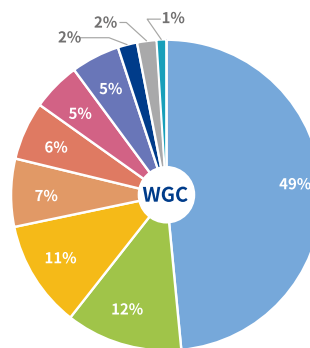

### Top 100 Exhibition Sectors at IGU Flagship Events Since 2016

In terms of the sectors which top 100 exhibitors come from at the previous WGCs, E&P has consistently held the lion share of exhibition space. The upcoming exhibition is also expected to cover a wide range of sectors within the natural gas industry, including E&P, LNG, infrastructure and technology, engineering, equipment manufacturers, and industry associations, etc..

Comparison of Exhibitor Numbers by Sector

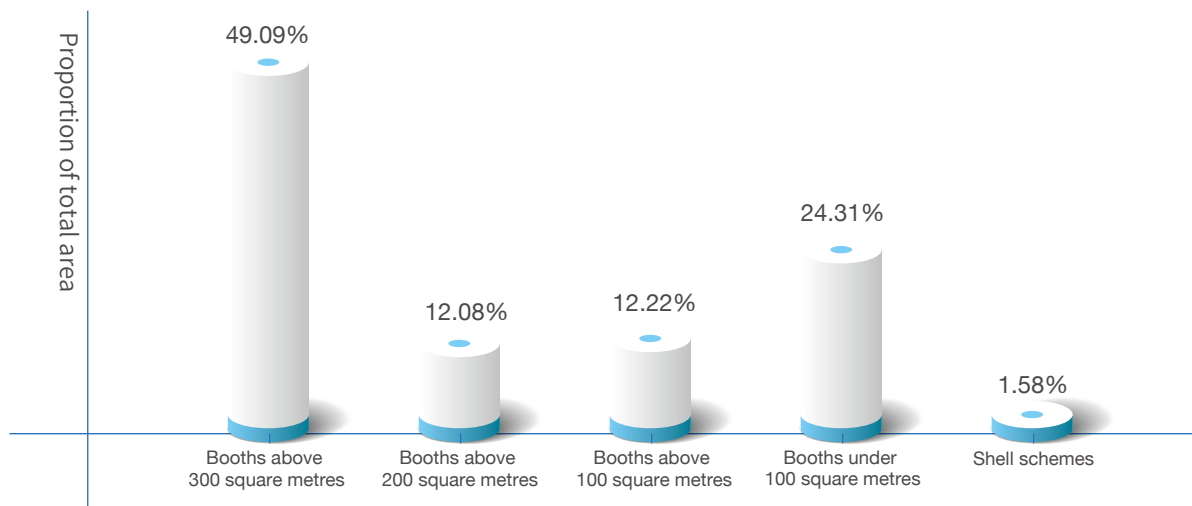

- E&P
- LNG Infrastructure
- EPC
- Generation/Utilities/Trading
- Marine
- Production Services

Comparison of Booth Size by Sector

- Diversified Industrial
- LNG Technology
- OEM
- Association
- Government

### Space of different types of booth in WGC2022

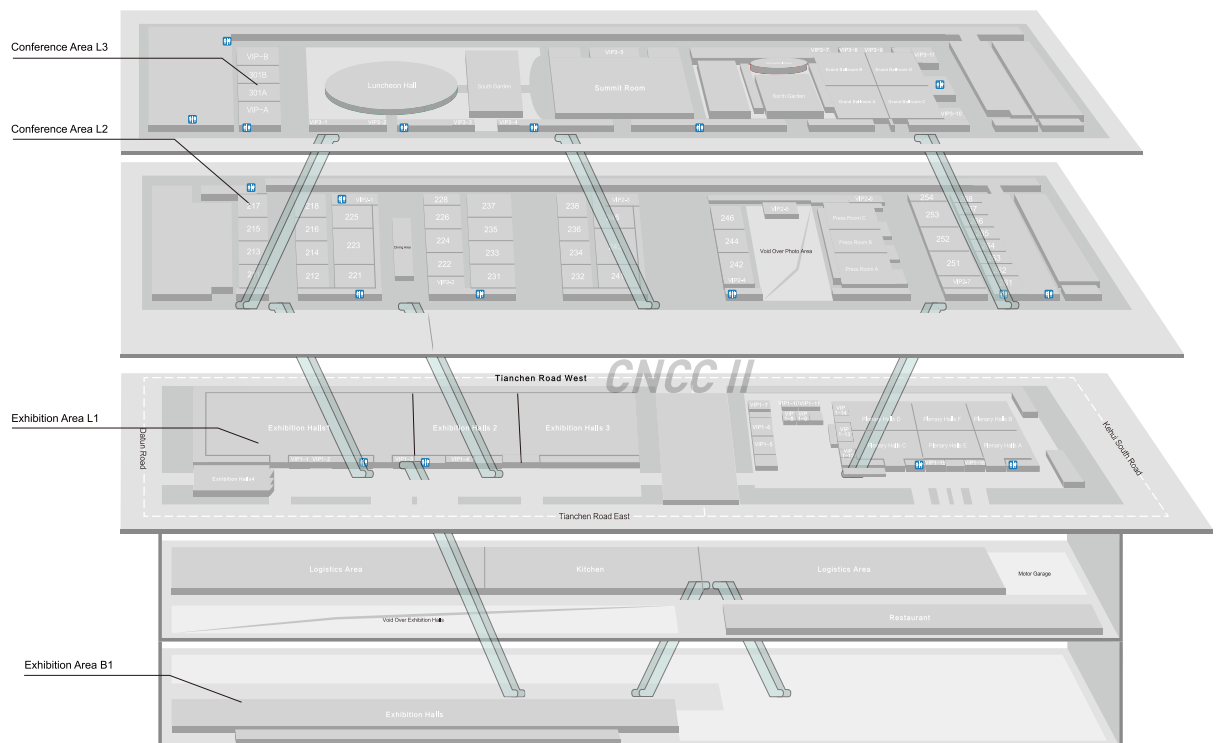

# 04 Venue

## Venue Introduction

WGC2025 has appointed Beijing Capital Group Exhibitions & Events (BCGEE) as the exclusive PCEO for the event, which will be held from 19-23 May 2025, at the China National Convention Center (CNCC II).

CNCC II is located at the central area of Beijing Olympics and designed by Mr. Christian de Portzamparc, a world-renowned French architect and Pritzker Prize winner. The building takes on a stretched while grand structural shape of "Spreading the Wings" with concise, variable facades, presenting both elegance and geniality in its overall solemnness. CNCC II, still under construction in 2022, was also listed as the top 10 most anticipated venues in the world in 2022. Once completed at the end of 2024, as the final project in the Olympic central area, CNCC-II will be a perfect ending stroke on the central axis of Beijing, which is the epitome of China's cultural confidence, openness, and inclusiveness. The century-old premier event of the gas industry will be held here, adding to the vibrance of the region.

Apart from the welcome and social receptions, the rooftop garden at Phase II can be used as an immersive networking space with Chinese, Western, or gas-themed decorations, providing an enhanced networking experience for attendees.

Phase II features a rooftop garden on the third floor, covering an area of 8,000 square metres. This rooftop garden also has a retractable roof, allowing for an "al fresco" experience.

The second floor of Phase II has a total of 16 medium-sized meeting rooms with an area of over 400 square metres. There are also 23 smaller-sized meeting rooms ranging from 100 to 210 square metres, as well as 10 VIP rooms.

# 05 Exhibition

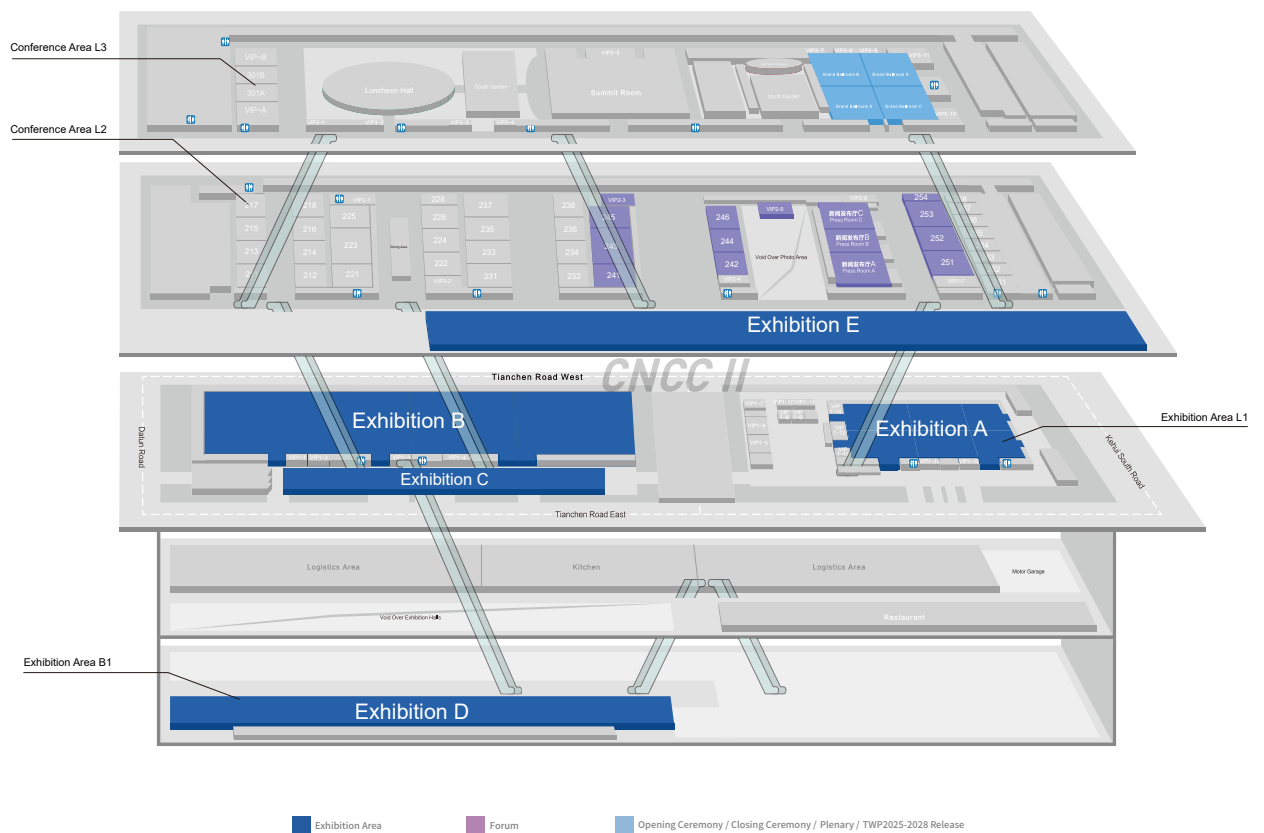

## Exhibition Layout

The WGC2025 exhibition will be divided into three themed zones and twelve areas, covering the entire gas value chain, as well as cross-industry integration. These areas include Innovation in China, Green Transformation, Energy Technology, Energy and Finance, Energy Digitalisation, Energy+Internet, Liquefied Natural Gas, Engineering Construction, Storage and Transportation, Safety Management, New Energy Applications (including hydrogen), and gas- and energy-related fields (consulting, insurance, information communication, finance etc.).

Join us at WGC2025, and secure a position for your company in the most dynamic marketplace the industry has ever seen. WGC2025 provides an excellent networking platform, allowing you to engage with clients face-to-face, renew old friendships and make new ones.

Here you will be able to showcase your products and services to decision-makers, corporate CEOs and industry experts, who will gather at WGC2025 to seek solutions to global and regional challenges, and to identify opportunities.

### WGC2025 Booth Plan (Working Draft)

## Exhibition Packages

WGC2025 offers a variety of exhibition packages. You may feel free to choose a Space Only booth, allowing you to create a personalised exhibition experience, or a Shell Scheme package for a hassle-free setup.

Email: [exhibition@wgc2025.com](mailto:exhibition@wgc2025.com)

## Booth Price (Space Only) - Overground

Exhibitors Categories	USD (tax included)	Notes
Standard	US \$1,115/m <sup>2</sup>	
Standard (Mem)	US \$1,115/m <sup>2</sup>	Exhibitor who is the member of IGU and pays the membership fee throughout the triennium.
Early	US \$1,029/m <sup>2</sup>	Exhibitor who signs the contract before 30 April, 2024
Early (Mem)	US \$917/m <sup>2</sup>	Member of IGU who pays the membership fee throughout the triennium and signs the contract before 30 April, 2024
Rebook	US \$942/m <sup>2</sup>	Exhibitors who participated in WGC2022

## Booth Price (Space Only) - Underground

Exhibitors Categories	USD (tax included)	Notes
Standard	US \$755/m <sup>2</sup>	
Early	US \$695/m <sup>2</sup>	Exhibitor who signs the contract before 30 April, 2024

\* The final price might be subject to slight adjustment.

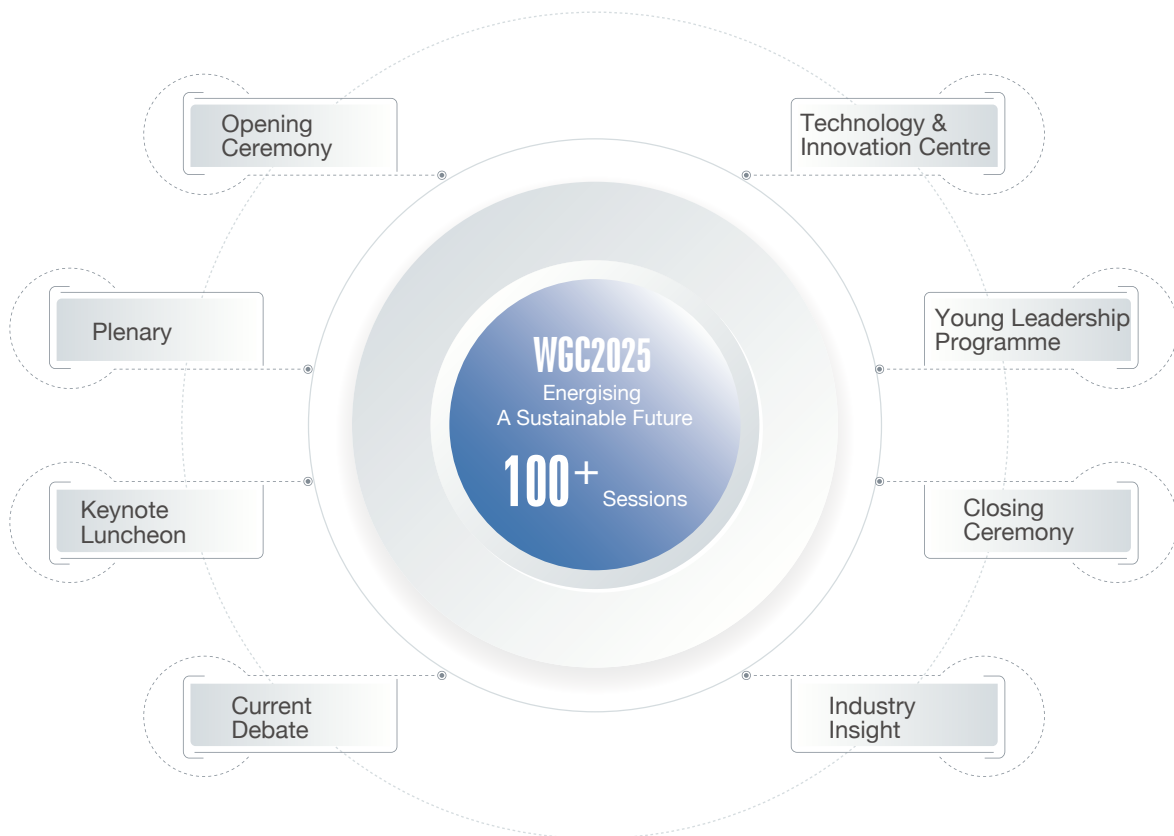

# 06 Conference

## Conference Introduction

Themed "Energising a Sustainable Future", WGC2025 will witness over a hundred sessions, including keynote session, current debate, industry insight, technology and innovation centre, etc.. In addition, a number of specialised discussions will be dedicated on topics such as clean energy, energy security, renewables coupling with gas, hydrogen development and utilisation, and digital transformation, etc..

Email: [registration@wgc2025.com](mailto:registration@wgc2025.com)

# Meeting Rooms

Meeting rooms are exclusively available for WGC2025 customers to book.

## Key Features

- Rooms of different sizes
- Furniture packages available at an extra charge

### 1F Exhibition Area B

### 1F Exhibition Area A

VIP rooms for sale: 18 rooms, ranging from 35m<sup>2</sup> to 260m<sup>2</sup>

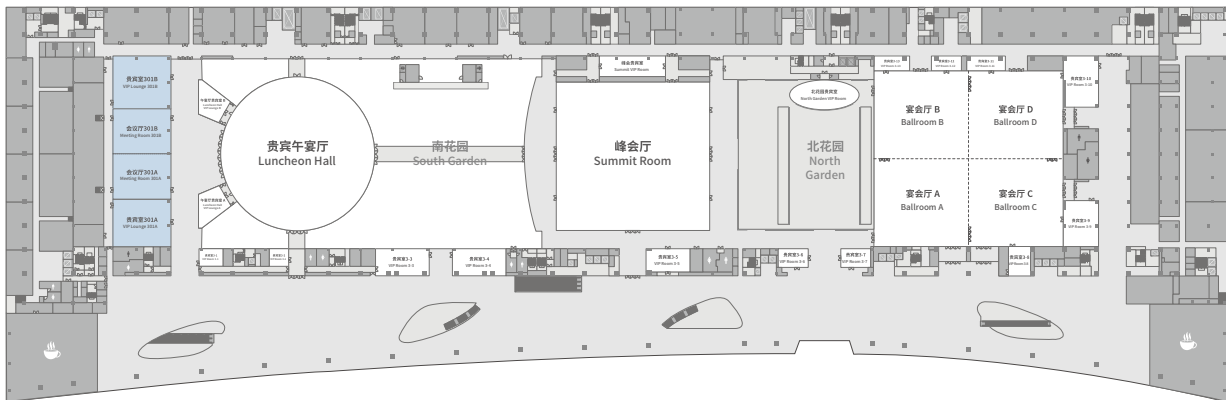

## 2F Meeting Area

Meeting rooms for sale: 21 rooms, ranging from 128m<sup>2</sup> to 810m<sup>2</sup>

## 3F Meeting Area

Meeting rooms for sale: 9 rooms, ranging from 42m<sup>2</sup> to 2680m<sup>2</sup>

# 07 Call For Abstract

The Call for Abstracts is an opportunity for all industry experts worldwide to showcase your knowledge, expertise and the latest technical innovations. The WGC2025 welcomes the submission of abstracts covering a range of topics relevant and important to gas and energy industries. Authors of accepted abstracts will be given the opportunity to present at WGC2025. They are also able to put themselves forward to be considered for the IGU Global Gas Award, the WGC2025 Regional Gas Award and the WGC2025 Industry Gas Award.

## Call for Abstract

Now Open!

## Author Notification

An email to notify authors regarding abstract results

## Full Paper Collection

Accepted authors to submit a Full Paper relating to their abstracts

## How to Submit an Abstract

To view the full list of themes and guidelines on How to Submit an Abstract, please visit [www.wgc2025.com](http://www.wgc2025.com)

## Themes

### Supply, demand, market and prices

Supply resilience	Investment
Gas market reformation and price mechanism	Shaping regional trading platform
Impact of environmental policies on demand and pricing	Other areas

### Digital transformation

Best practices of optimising gas value chain by digital methods	Digital transformation of cross-sector cooperation
Opportunities and challenges of digitalization for energy enterprises	Enhancing the application of data science and AI in the industry
	Data and cyber security
	Other areas

### Gas narratives under the new context

Shaping positive role of gas	Economic growth
Promoting new energy system	Sustainable environmental and social governance (ESG) Performance
Promotion of gas to the public	Coping with extreme weather
Promoting new policies, mechanisms and standards	Other areas
Smart energy	
Poverty alleviation	
Zero hunger	
Affordable and clean energy	

### New gases promoting energy transition

Hydrogen	Ammonia
Synthetic methane	CC(U)S application
Biomethane	Other areas

### New momentum for LNG

Natural gas liquification technology	Carbon neutral LNG and its certification
LNG storage and transportation	LNG trading and market mechanism
LNG regasification	Cryogenic energy utilisation
LNG utilisation scheme innovation	Other areas

### Methane emission mitigation

Best practice of methane emission mitigation in upstream sector	Monitoring, reporting and verification
Best practice of methane emission mitigation in gas infrastructure and end use applications	Methane emission mitigation international cooperation
Advanced technologies in emission monitoring, quantification and mitigation	Methane emission mitigation methodology
	Emission factor research
	Other areas

### Best practices through the whole value chain

For more information on submission, please contact [abstract@wgc2025.com](mailto:abstract@wgc2025.com)

# 08 Sponsorship

## Sponsors and Supporters of Previous WGCs

## Sponsorship Packages and Benefits

Sponsoring Fee (US\$ tax included)	Host	Principal US\$515,000	Global US\$420,000	Diamond US\$320,000	Platinum US\$225,000	Gold US\$155,000	Silver US\$110,000	Bronze US\$78,000	Associate US\$32,000	Additional Credits US\$4,750

# Exclusive Items Menu

# 09 Beijing

## Introduction

Beijing is a city with a long history and rich culture. It offers a blend of tradition and modernity, featuring numerous tourist attractions and a dazzling array of cuisines. Visitors can experience China's traditional culture and modern ambiance while enjoying a delightful journey.

## Transportation Options

### International Transportation

Beijing Capital International Airport (BCIA)

BCIA is one of the three comprehensive transportation gateways in China, with a total construction area of 1.41 million square metres. As of October 2023, BCIA has offered routes to 208 destinations in 47 countries and regions. BCIA is about 26 kilometres from CNCC, with just a 30-minute drive.

Beijing Daxing International Airport (BDIC)

As of December 2023, Daxing Airport has offered more than 30 international/Hong Kong/Macao/Taiwan routes, with a 72-kilometre distance and a 75-minute drive from CNCC.

### Inter-city Transportation

With seven railway stations, Beijing is China's largest railway hub. A vast network of railway lines covers across China. Online ticketing services are available.

### Beijing City Transportation

#### Subway

Beijing's subway system has 27 lines as of December 2023; by 2025, there will be 30 lines. Self-service ticketing machines support QR code payment. CNCC sits next to the Olympic Park Station on Beijing Subway Lines 8 and 15.

#### Taxi

There are 279 taxi companies in Beijing, operating about 70,000 taxis. The initial fee of a taxi is RMB 13 for the first three kilometres, and it costs RMB 2.3 for each additional kilometre after that. Each ride incurs a fuel fee of RMB 1.

#### Bus

There are more than 20,000 buses that operate on more than 1,000 routes in Beijing, undertaking the task of ground public transportation in Beijing.

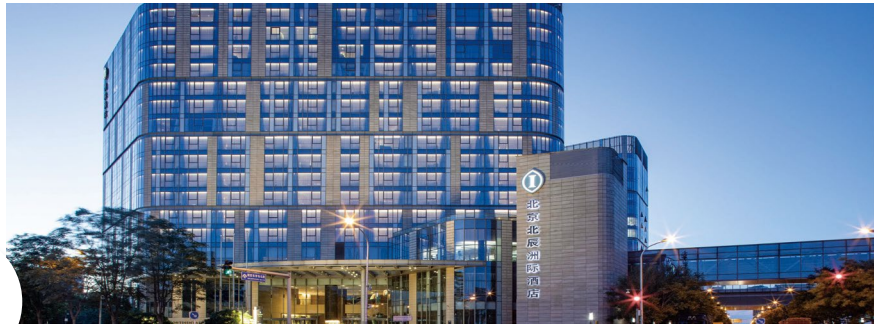

#### Shared Bike

Beijing has been completely covered by shared bike operations. Rent-and-return services are available across the six central urban districts. Bike sharing is an eco-friendly, practical, and efficient way of transportation. Bikes can be used simply by scanning a QR code.

# Hotels

Intercontinental Beijing Beichen

Huiyuan Prime Hotel

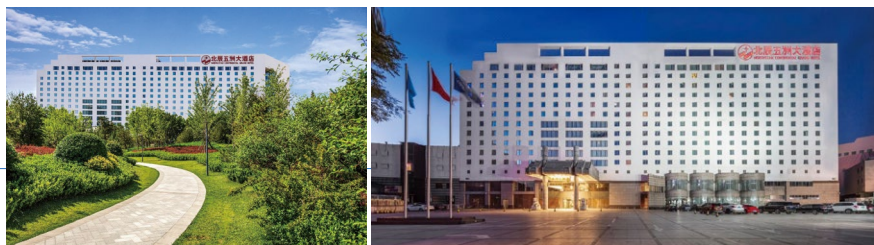

China National Convention Center Grand Hotel

Yayuncun Hotel

Beijing Continental Grand Hotel

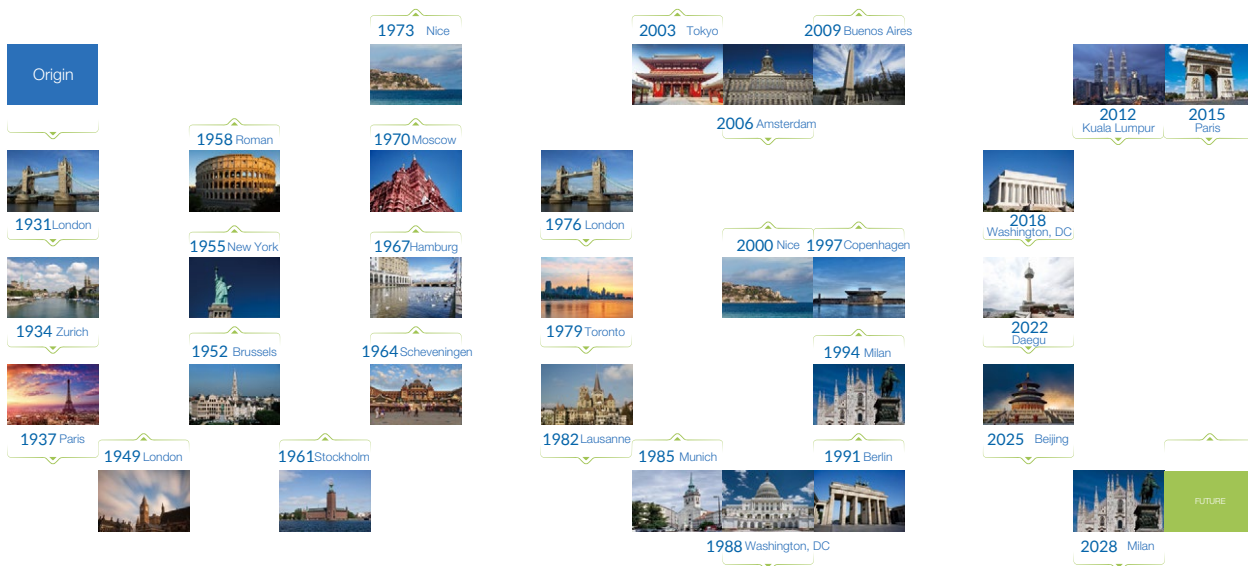

# 10 The Host and the Organiser

## About IGU

The International Gas Union (IGU) was founded in 1931.

It is the largest and the most influential organisation for the gas industry worldwide. IGU covers the entire gas value chain, with more than 150 members from over 80 countries and regions in the world, mainly comprising associations, corporations, research institutions, etc., representing over 90% of the global gas market. The mission of IGU is to advocate gas as an integral part of a sustainable global energy system.

## About Beijing Capital Group Exhibitions & Events

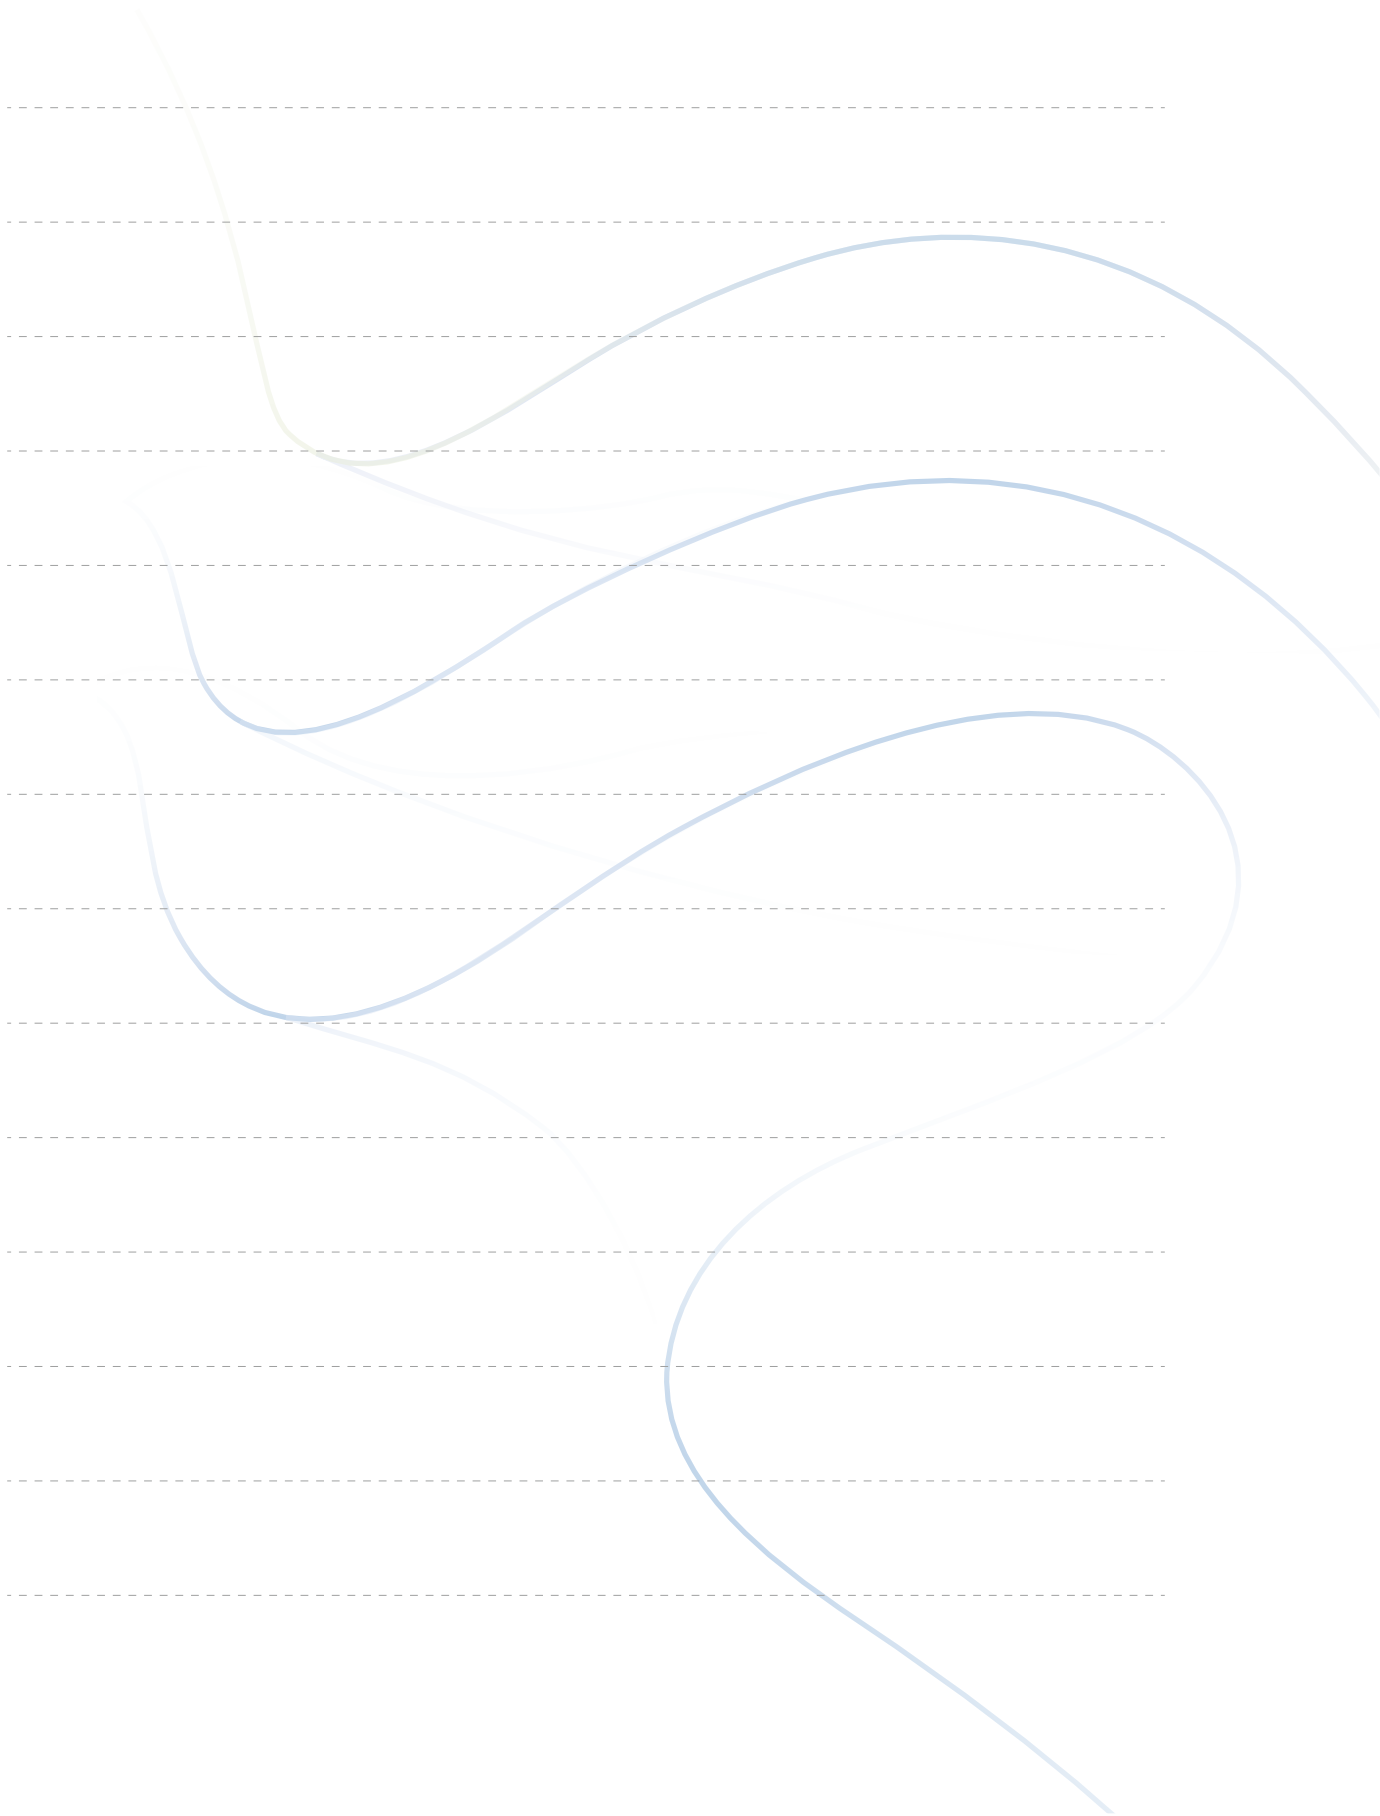

Beijing Capital Group Exhibitions & Events is owned by the Beijing North Star Company, a Beijing state-owned enterprise. With over 30 years of professional operational experience, BCGEE has developed expertise in four major business sectors: service and support for high-level state events and business events, venues and hotels operation and management, event organising and hosting, and consulting service on events industry. It has gradually evolved into one of China's most influential event brand enterprises.

With a comprehensive event service team of over 5,000 professionals, BCGEE possesses professional capabilities in venue design, event management and execution, state and government reception, state banquet design and production, and facility operation management.
