

SIDE EVENT SE-1

UNESCO Water Family Symposium I: Sediment and Soil Erosion Solutions

🕒 10:40-12:30, 23 September 2024, Monday

📍 Beijing International Convention Center, Room 2#-A

This event aims to provide a platform to reinforce international scientific and technological cooperation in the field of sediment, soil erosion, flood and ecology. Through in-depth exchanges and multi-party interactions, we aim to share latest development and enhance capacity building in related countries, thereby promoting academic development in this field.

THEME: Sustainable use and management of land and water resources

ORGANIZER(S): International Research and Training Center on Erosion and Sedimentation, China Institute of Water Resources and Hydropower Research

PROGRAM

09:00-10:20	Keynote Speech	Moderator: WANG Zhaoyin
10:40-11:40	Keynote Speech	<p>SHAO Mingan, Academician of the Chinese Academy of Sciences, Research fellow of Institute of Soil and Water Conservation, CAS & MWR</p> <p>Slobodan P. Simonovic, Fellow of the Royal Society of Canada and Academy of Engineering, President of the International Conference on Flood Management, Professor of University of Western Ontario, Canada</p> <p>Helmut Habersack, UNESCO IHP President of Intergovernmental Council, President of WASER,</p>

		University of Natural Resources and Life Sciences Vienna (Video)
11:40-12:20	Pannel Discussion	Moderator: WANG Zhaoyin
11:40-12:20	Pannel Discussion	<p>Hyoseop Woo, former vice president of IAHR, Gwangju Institute of Science and Technology</p> <p>Carmelo Dazzi, Director of the World Society for Soil and Water Conservation, former President of the European Society for Soil and Water Conservation, Professor at the University of Palermo, Italy</p> <p>Valentin Golosov, Lomonosov Moscow State University</p> <p>SHI Hongling, Deputy Division Chief of IRTCES</p> <p>Charles Steven Melching, Associate editor of International Sediment Research and visiting professor at the University of Wisconsin</p> <p>Chang Chun Kiat, River Engineering and Urban Drainage Research Centre, Malaysia</p> <p>Tarik Benabdellouahab, Head of the Environment and Natural Resources Department, the National Agricultural Research Institute of Morocco</p> <p>Seyed Hamidreza Sadeghi, Tarbiat Modares University</p>
12:20-12:30	Wrap-up of UNESCO Water Family Symposium I: Sediment and Soil Erosion Solutions
