

Water Project Business Forum-2

🕒 16:10-18:00, 24 September 2024, Tuesday

📍 Beijing International Convention Center, Room 201BC

These sessions are a strategic platform designed to connect government entities and industry players, with the goal of advancing tangible water-related projects. It will consist of detailed presentations from government representatives, who will outline current water challenges of each country and ongoing water projects. This provides the industry with a clear understanding of the needs and priorities of the public sector.

In addition, water companies will present their core technologies, share their experiences with international projects, and discuss how their solutions can contribute to addressing global water issues. Furthermore, the AWC Secretariat and related stakeholders will offer a comprehensive overview of its water projects, sharing outcomes from previous initiatives and detailing plans for future endeavors.
